# Document Revision History

## 0. Overview

---

Name: Overview

Path:

# This Document describes the Followings

1. User interface of KOCOWA web service
2. Use case including end user scenarios and UI rules for designing and developing web
3. The scenario codes mentioned within this document are unique and used as identifiers

# Meaning of KOCOWA+ Version

1. The service is defined as Version 3.5 before September 2024. (Based on the date the plan was created.)
2. KOCOWA+ Version 4.0 upgraded from Version 3.5.
3. This document is the service plan document for KOCOWA+ Version 4.0/

Name: Overview

Path:

# Objective

1. UI guideline KOCOWA+'s web UI guidelines will help users to have constant comfortable service detailed information is as follows;

- Convenience
- Usability
- Adaptability
- Flexibility
- Consistency
- Differentiation
- Creativity
- Sophisticated
- Safety

2. The purpose of UI guideline

\* This guideline uses the following rules to keep the service of KOCWOA web UI consistently and conveniently.

- The simpler display structure, the better.
- Simplify depth structure for service.
- Minimize the loading time of the service.

Name: Information Architecture (IA)

Path:

# Information Architecture (IA)

Name: Resolution

Path:

# Responsive Web

1. KOCOWA+'s web page has the responsive web structure.
2. The size standards of the responsive web are as follows. The absolute reference point is the horizontal size and dose not include the margin value.

PC size: 1920, 1440, 1024 (break point)

Tablet PC size: 768

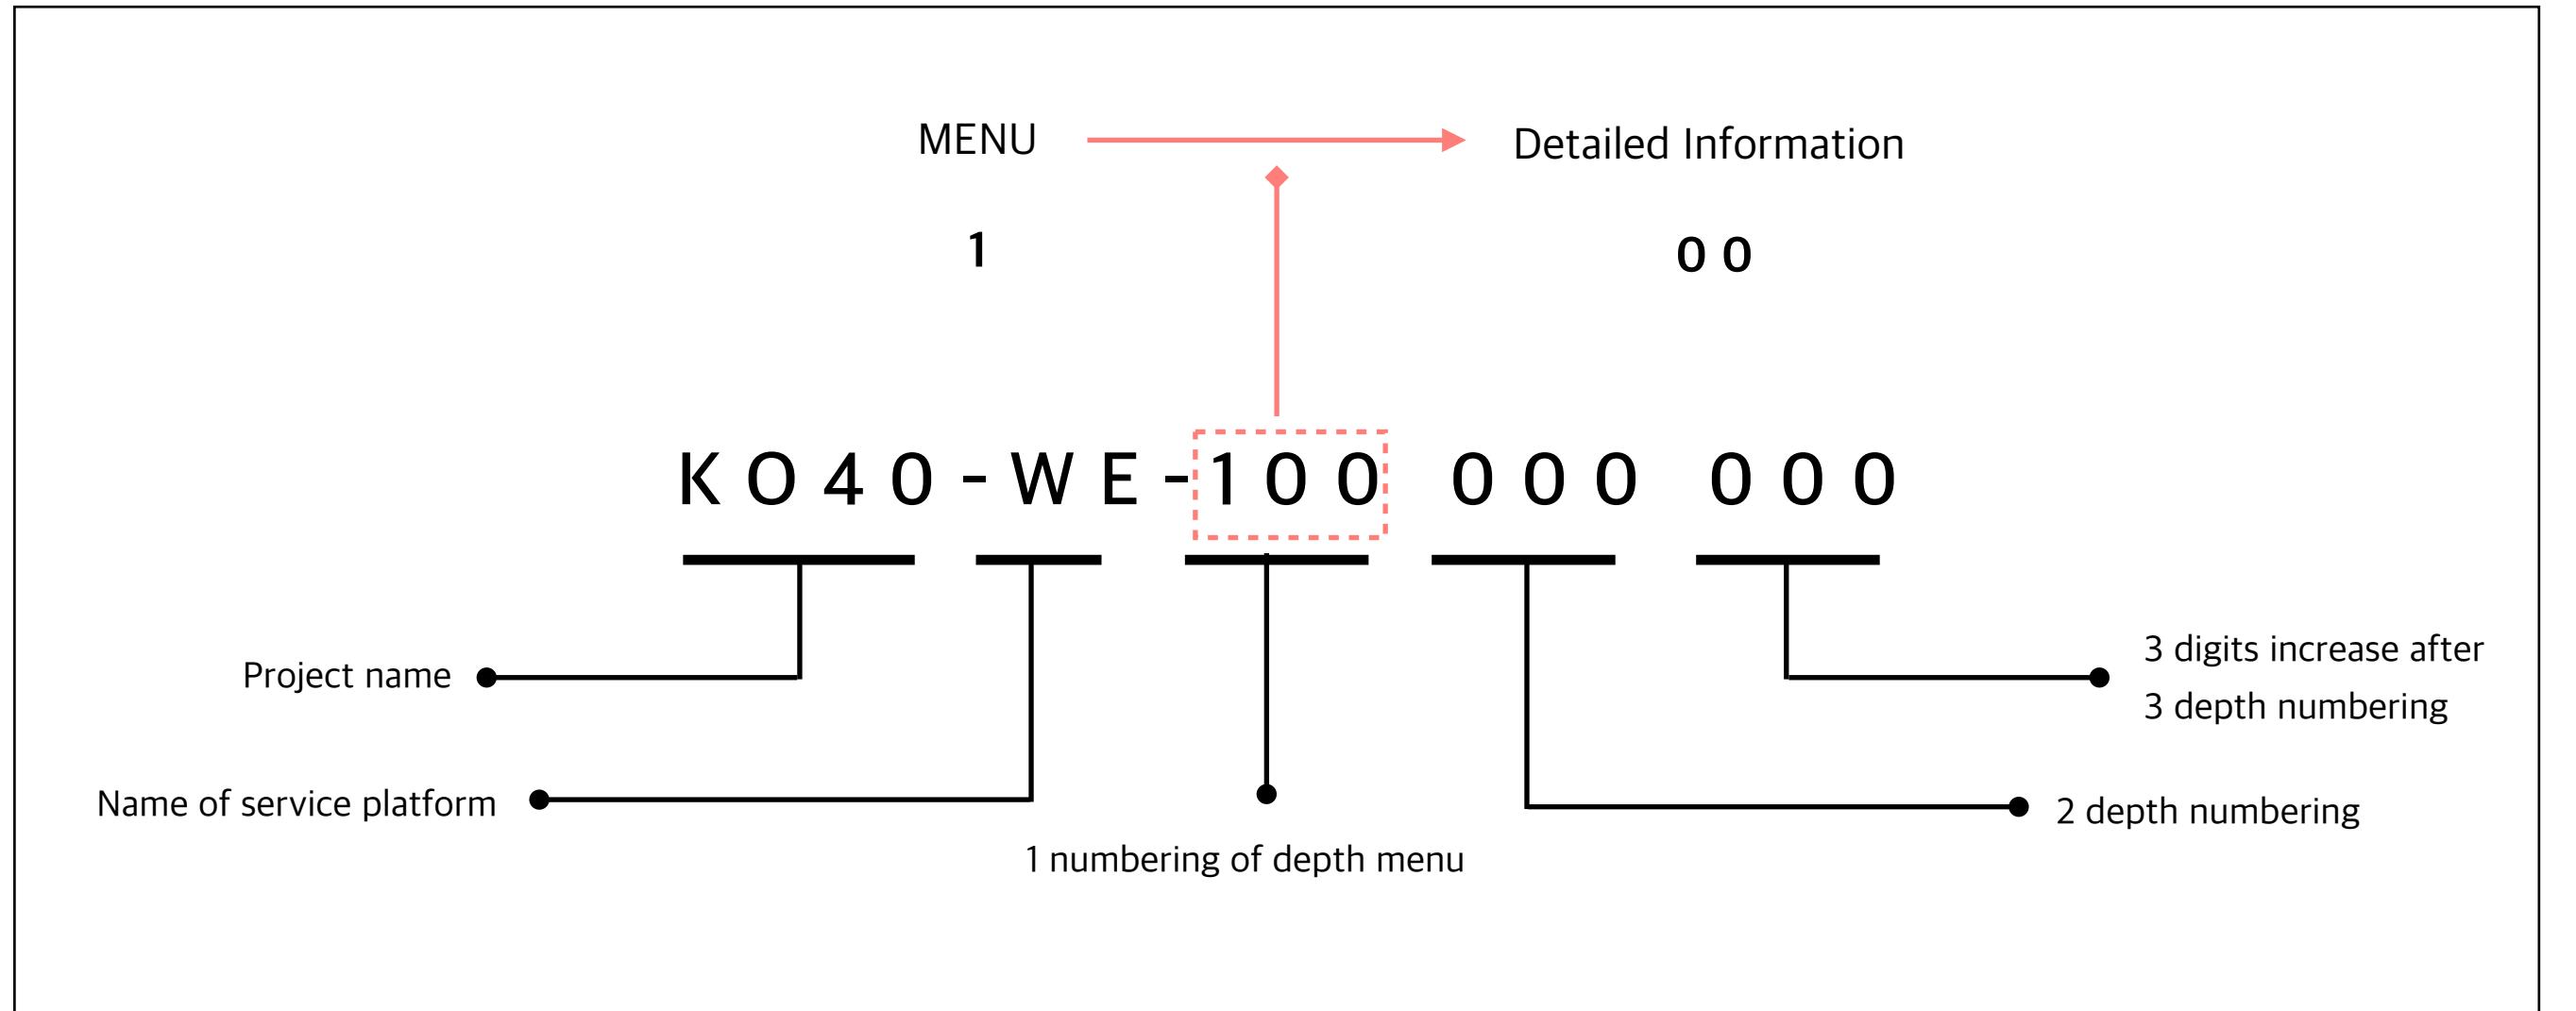

Mobile size: 320

Name: Unique Code

Path:

# Scenario Unique Code Management

1. Documentation follows the unique code as defined

2. The document can be modified by the owner of the document or by the Service Planning team.

3. Publication of documents is in PDF format.

# General Rule

**★When changing the way the episode list is sorted or stopping episode playback and re-displaying the Content detail screen, the button name should change accordingly.**

## 1. [Watch Episode 01]

- If the content is sorted in descending order of episodes, such as dramas, and there is no viewing history, the button name.

The Watch Button name should also change as the episode sorting method changes.

- If the user has finished watching the last episode, this button will be displayed.

**★When entering the content detail screen and stopping episode playback and returning to the content detail screen, the Episode List should be sorted appropriately.**

### [Episode List Ordering]

- If the user does not have a viewing history and sort by Oldest, it will be sorted by the lowest episode number as shown above.

Name: button\_naming

Path:

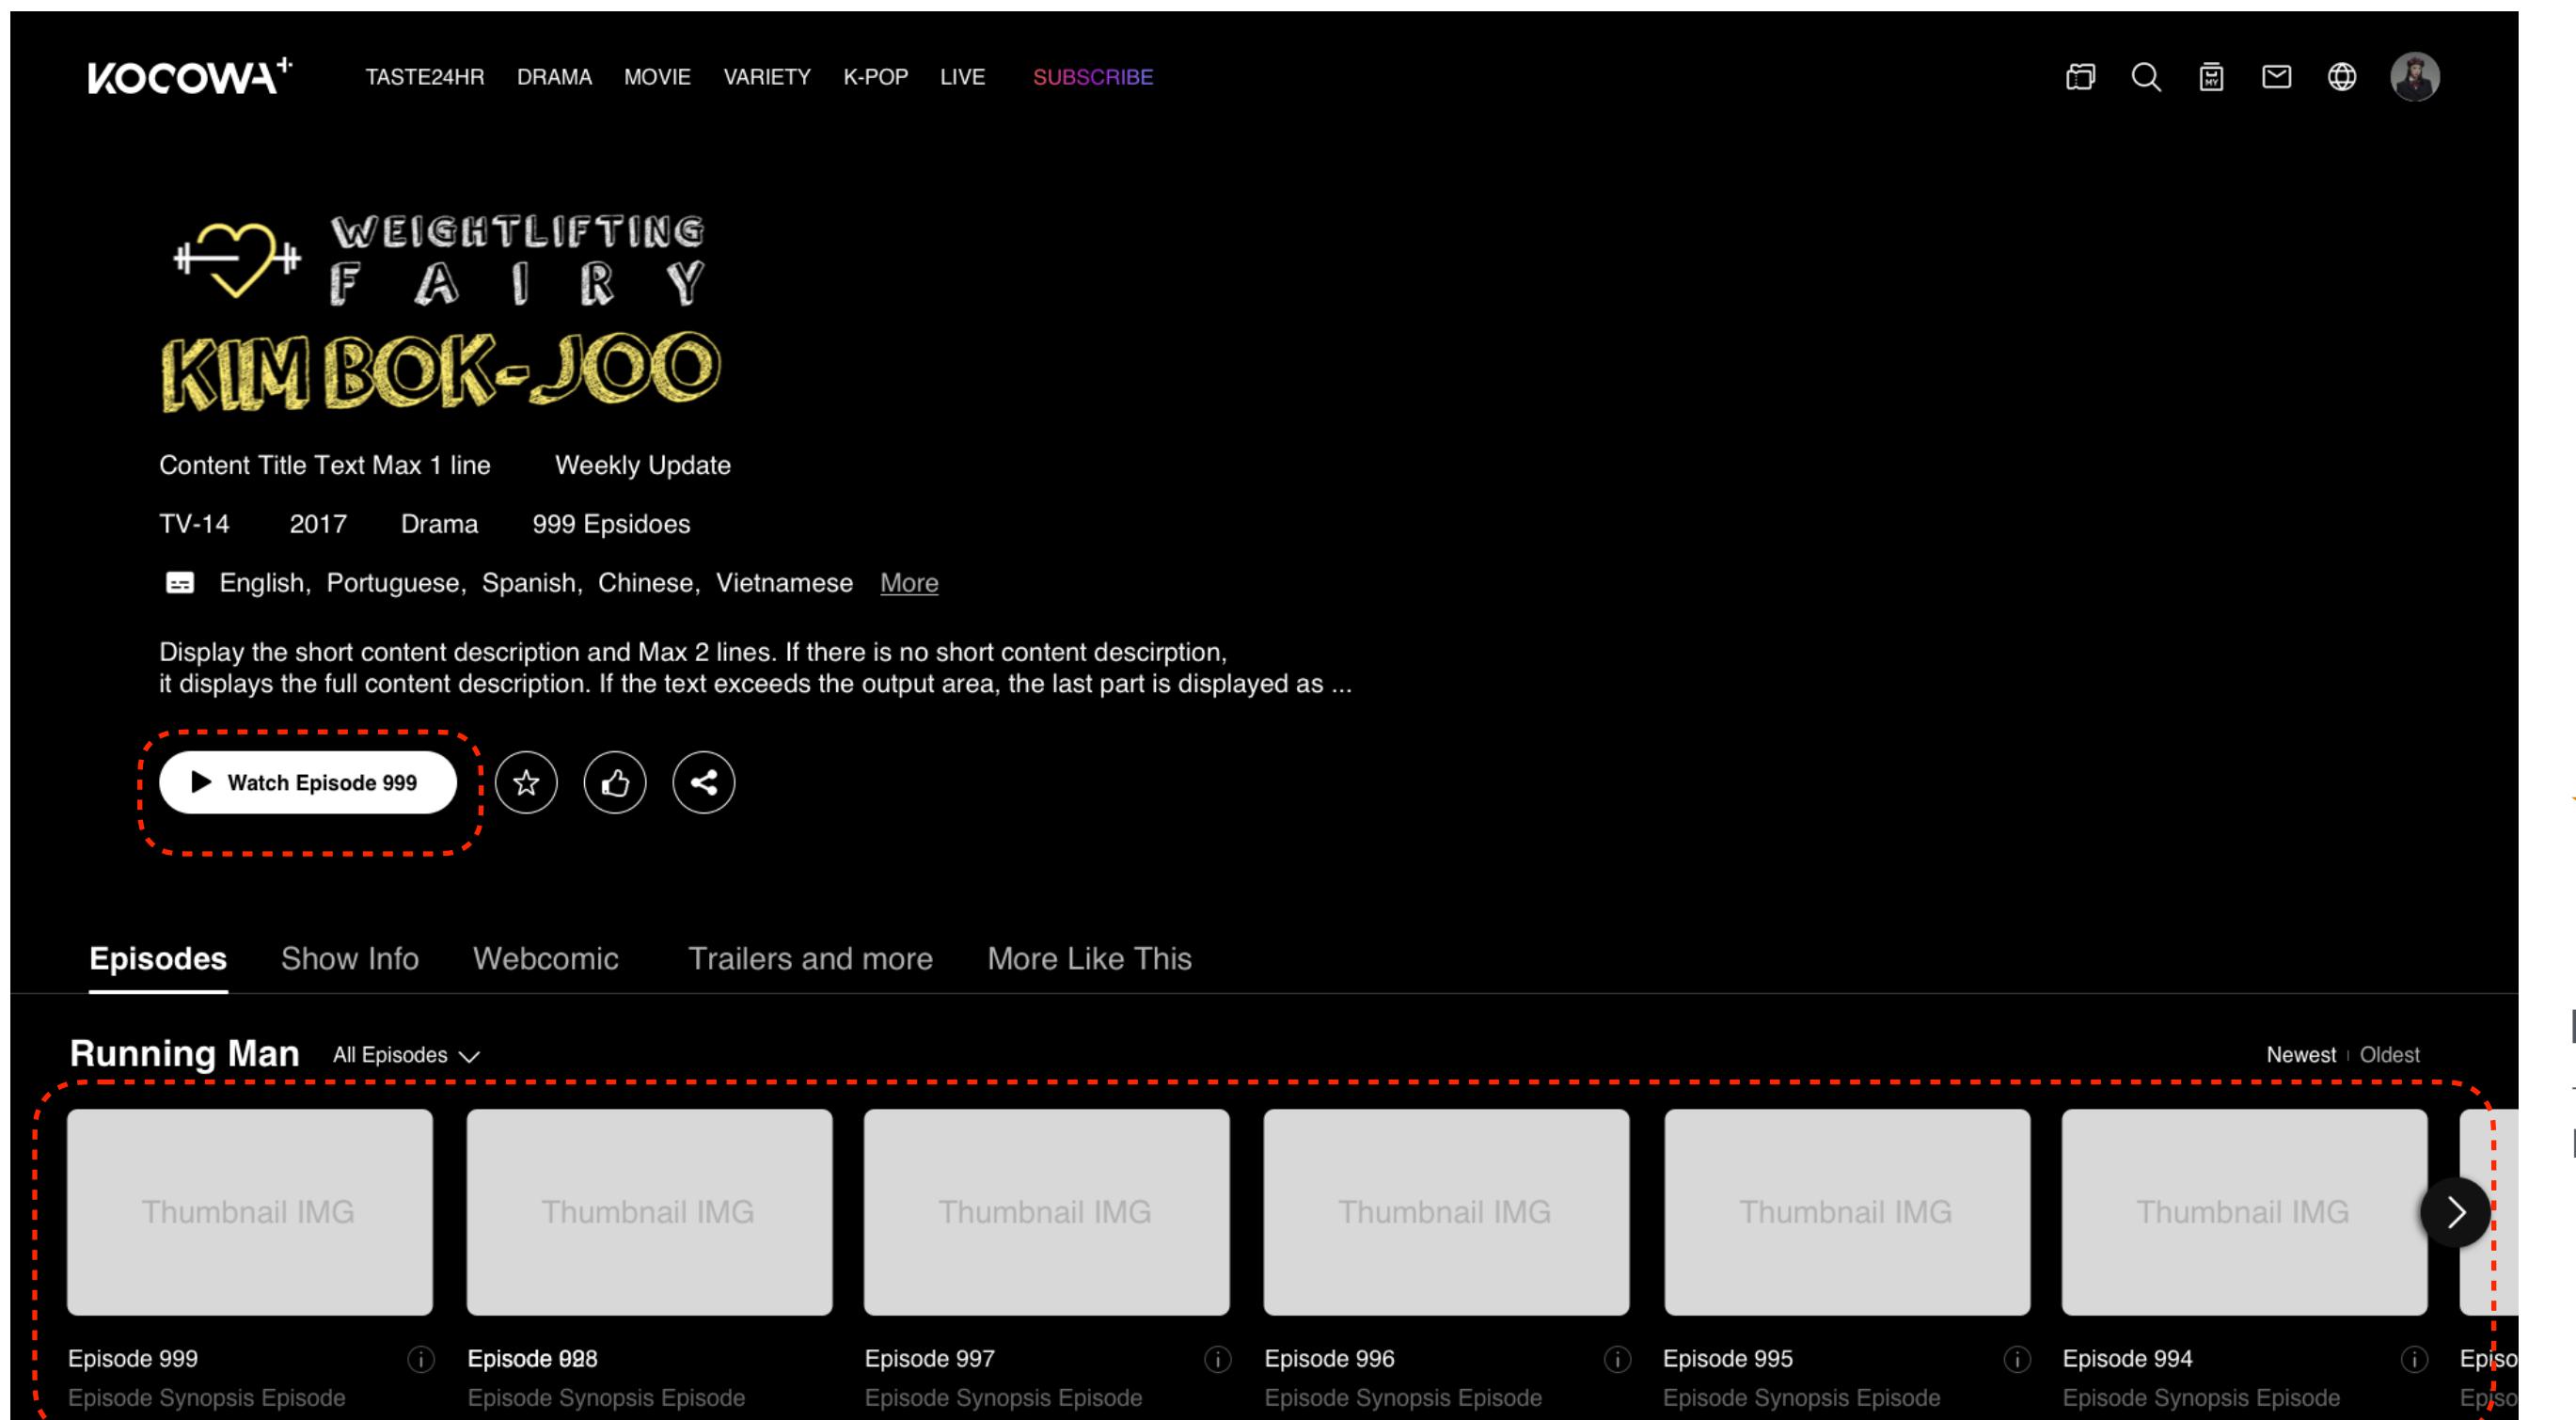

2024.12.09 Updated

# General Rule

**★When changing the way the episode list is sorted or stopping episode playback and re-displaying the Content detail screen, the button name should change accordingly.**

## 2. [Watch Episode nnn]

- If the content is sorted in order of high episode count, such as a variety, and there is no viewing history, the button name.
- The Watch Button name should also change as the episode sorting method changes.

**★When entering the content detail screen and stopping episode playback and returning to the content detail screen, the Episode List should be sorted appropriately.**

### [Episode List Ordering]

- If the user does not have a viewing history and sort by Newest, it will be sorted by the highest episode number as shown above.

Name: button\_naming

Path:

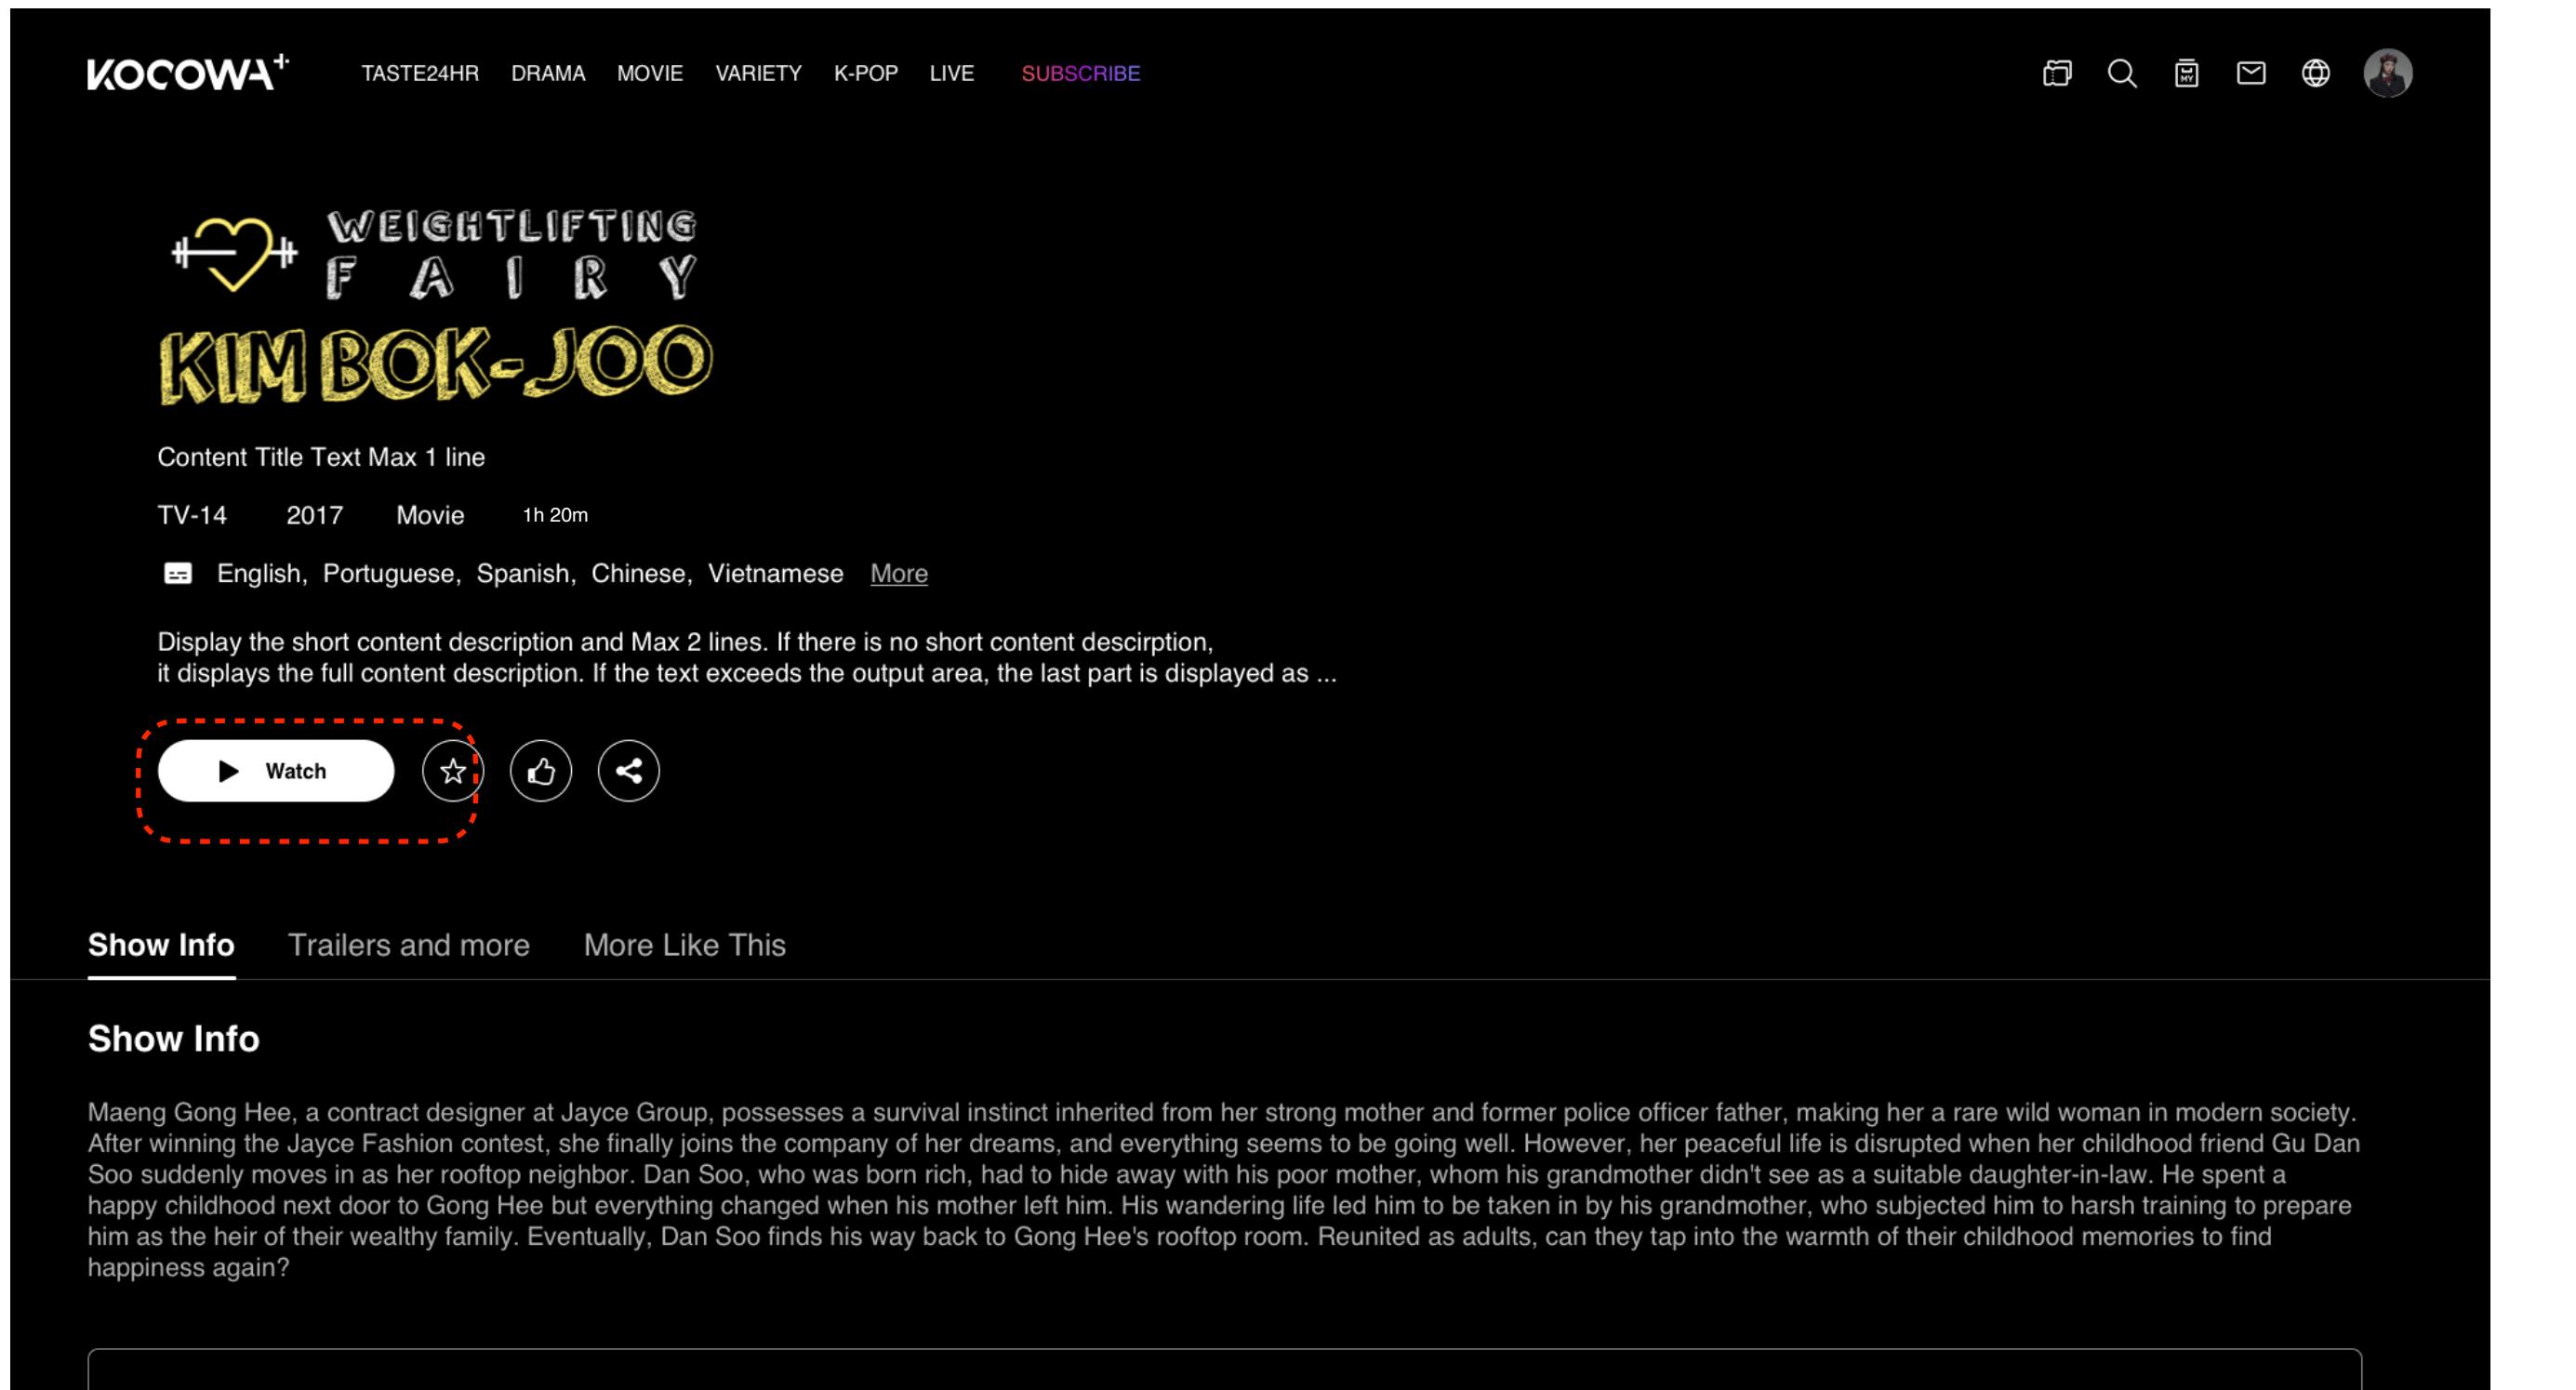

2024.11.14 Updated

# General Rule

★When changing the way the episode list is sorted or stopping content playback and re-displaying the Content detail screen, the button name should change accordingly.

## 3. [Watch]

If it's a movie, the button name.

Name: button\_naming

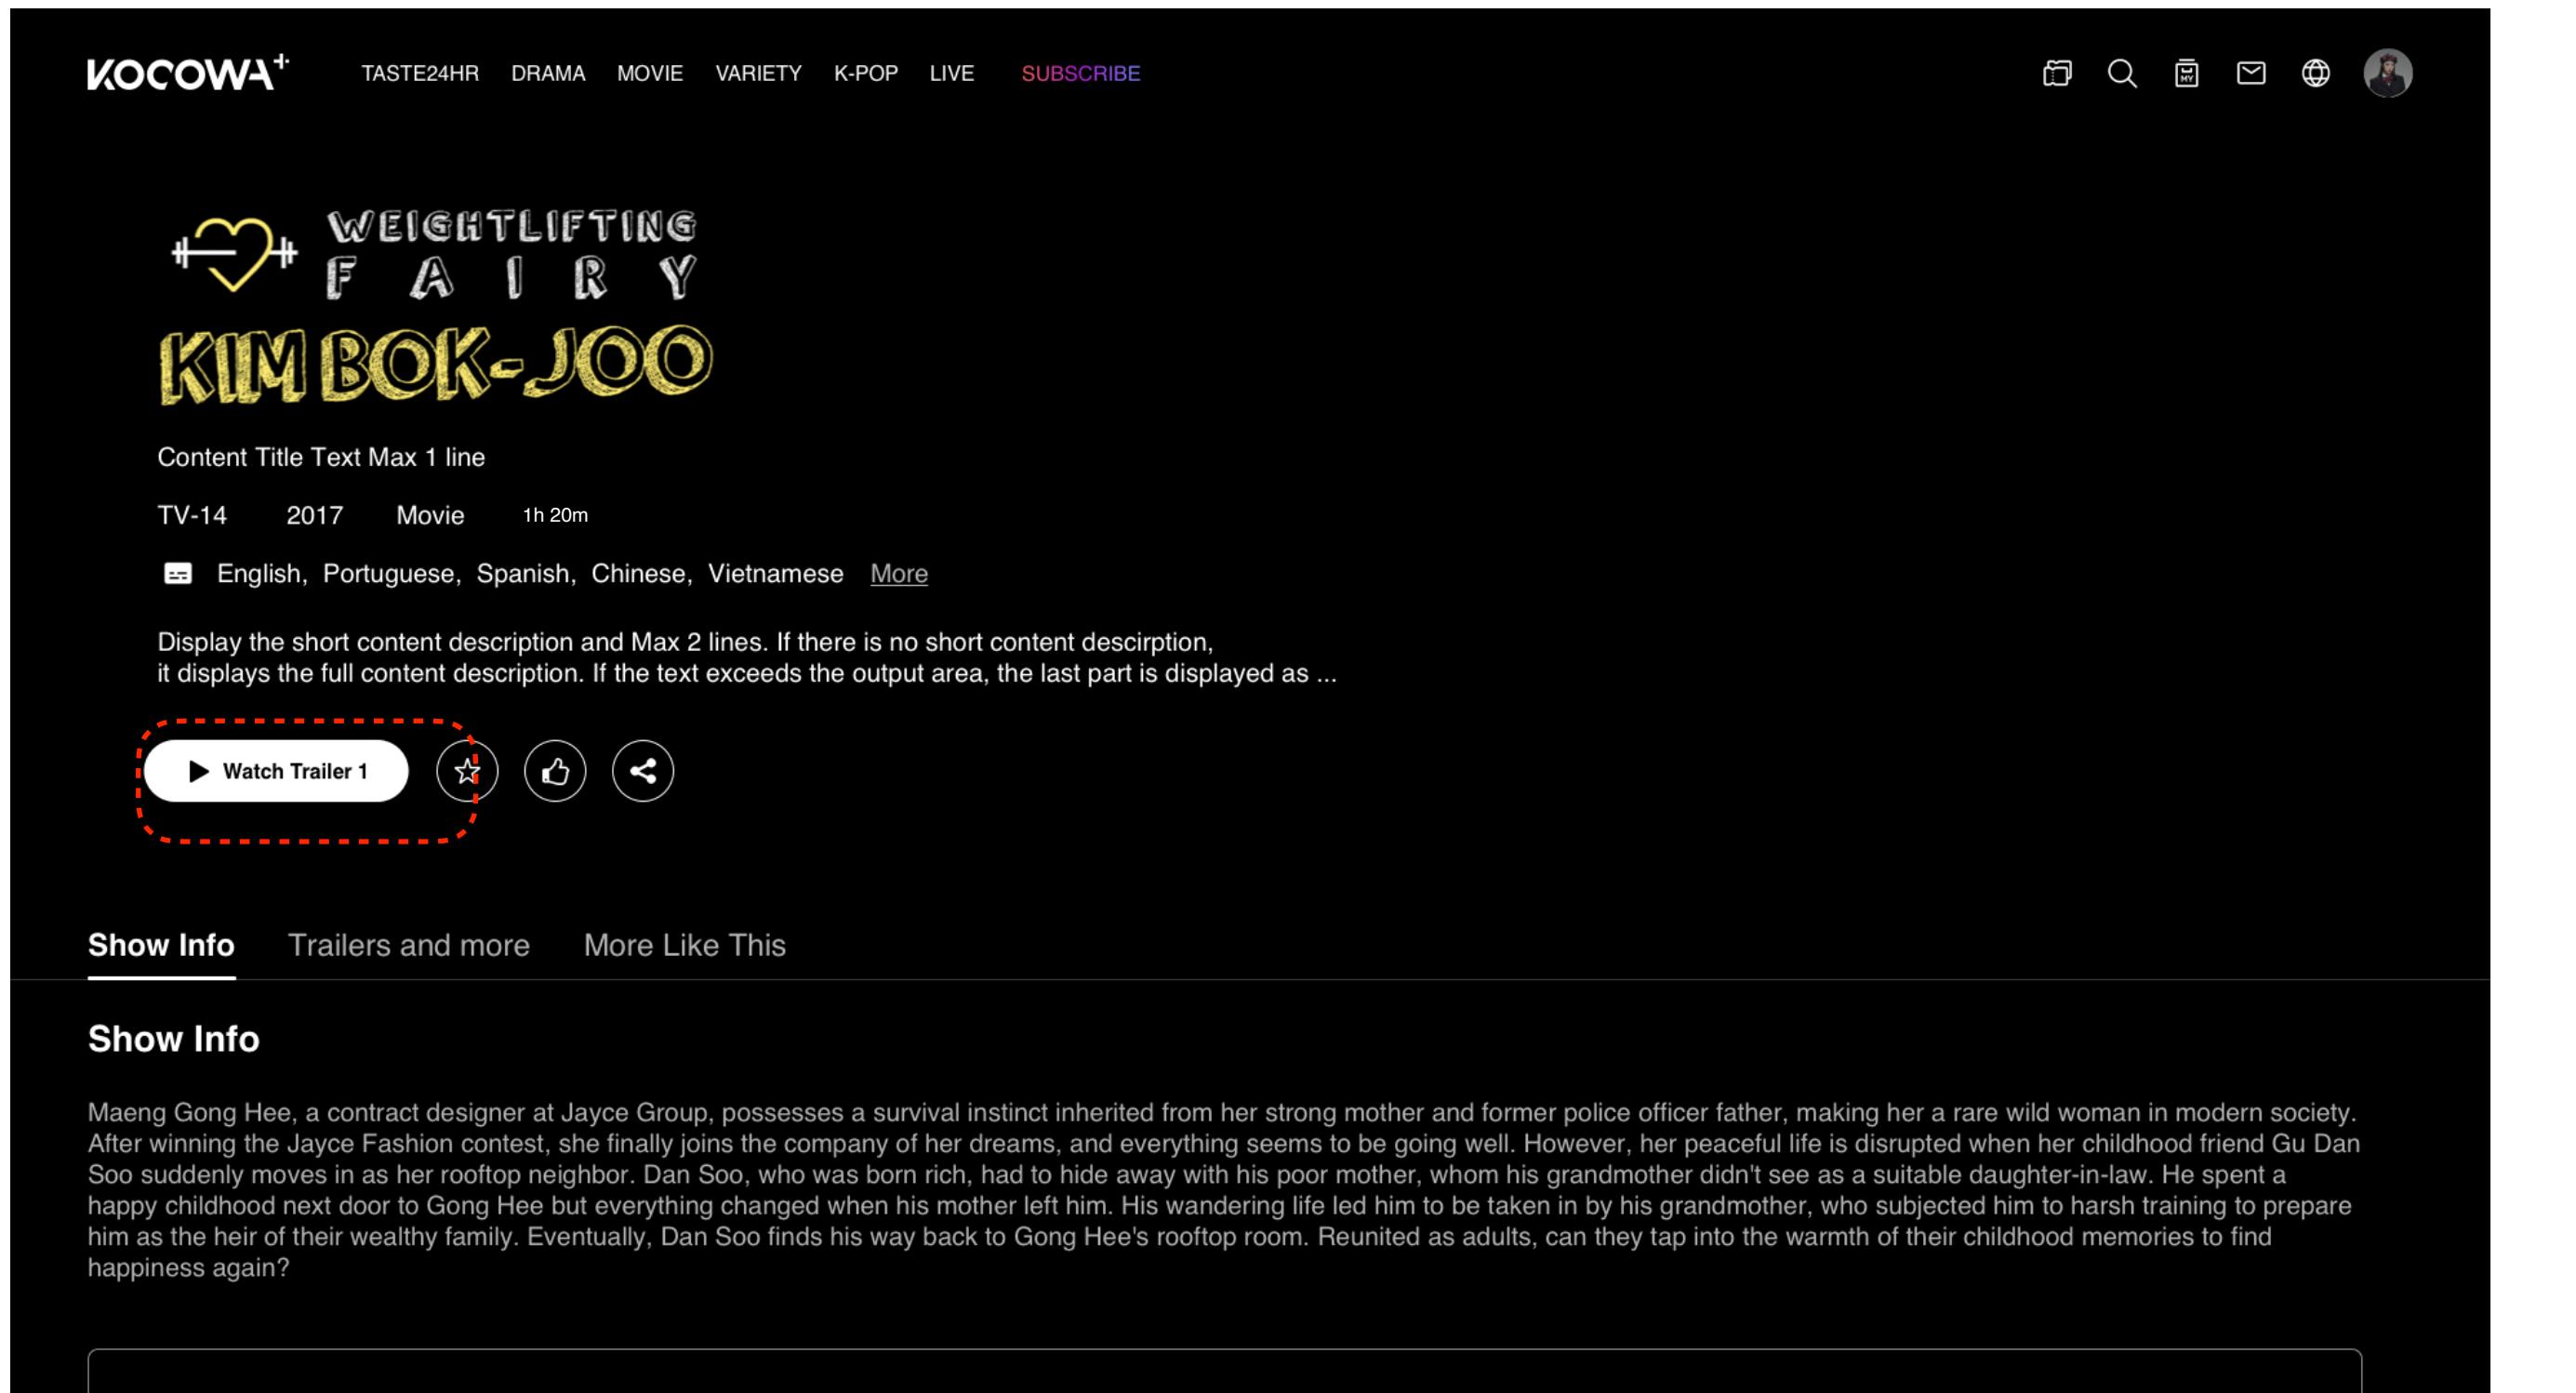

Path:

2024.11.14 Updated

# General Rule

## 4. [Watch Trailer and more name]

- If there is no main video (or episode) but a Trailer and More video, the title of the latest Trailer video is added after Watch.

Name: button\_naming

Path:

2024.12.09 Updated

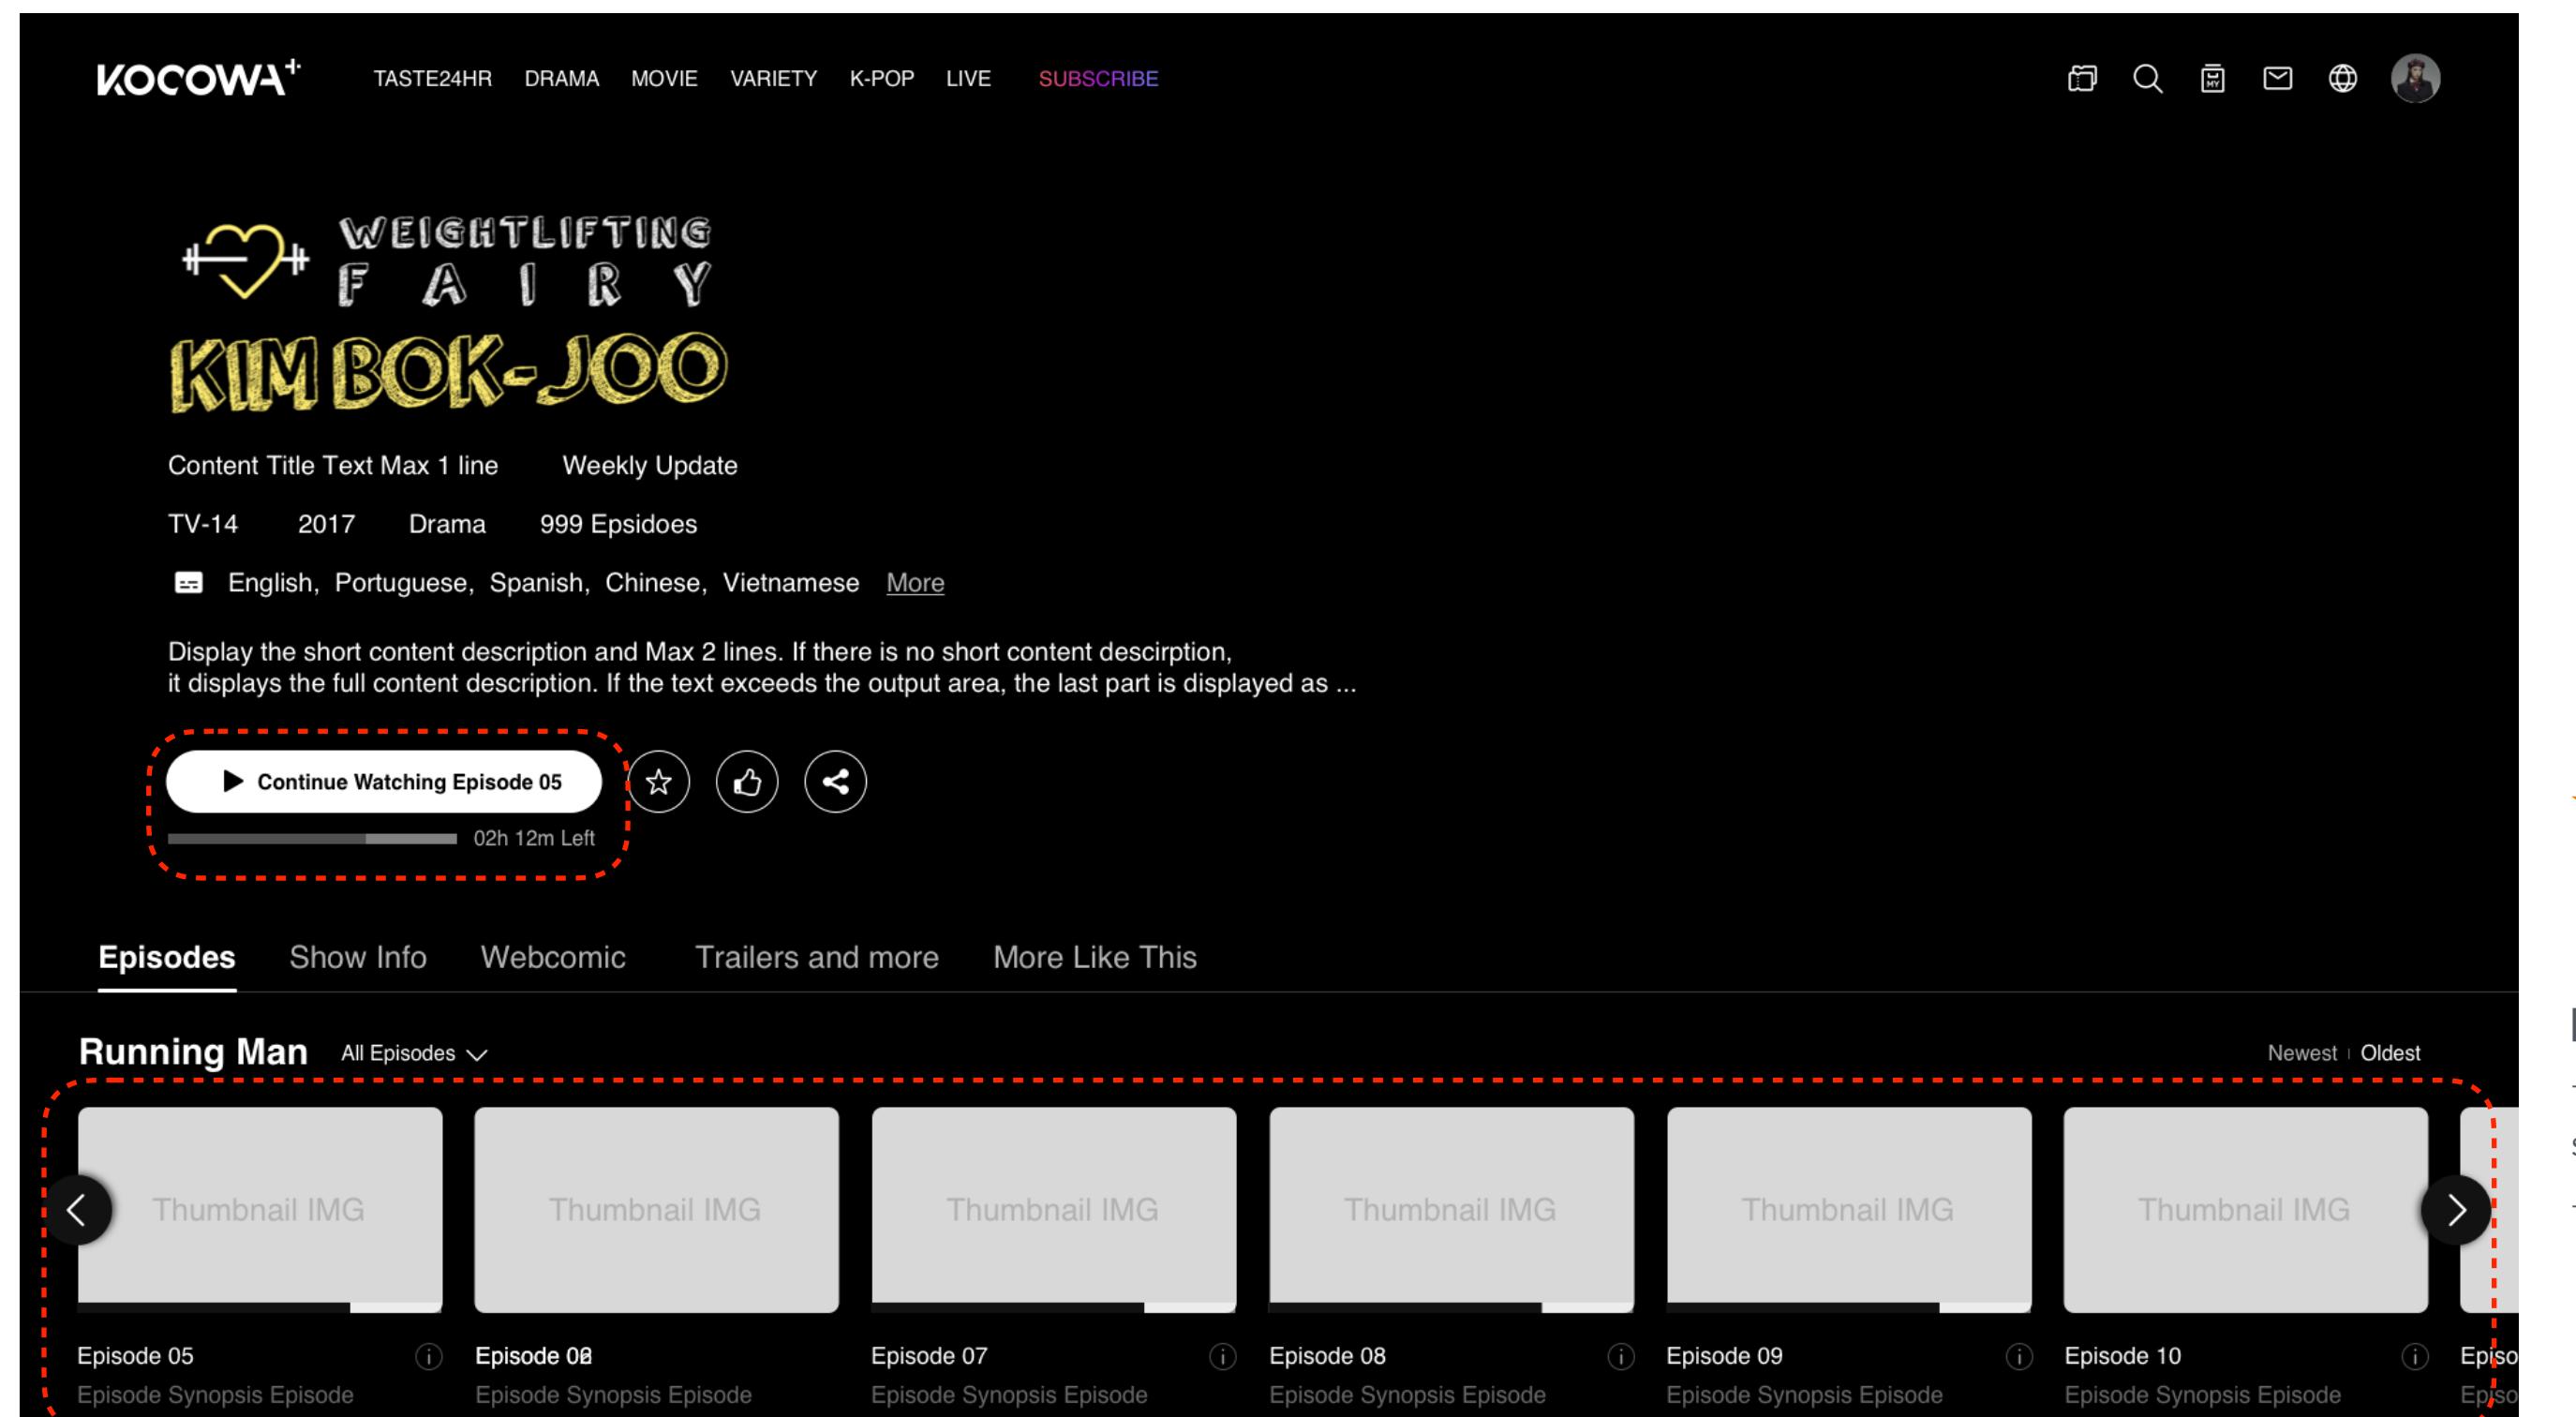

# General Rule

**★When changing the way the episode list is sorted or stopping episode playback and re-displaying the Content detail screen, the button name should change accordingly.**

## 5. [Continue Watching Episode nnn]

(If the content has episodes) If the user has a viewing history, it will be displayed with the most recently watched episode number.

And at the bottom of the button, it outputs a progress bar and remaining time for the viewing history.

**★When entering the content detail screen and stopping episode playback and returning to the content detail screen, the Episode List should be sorted appropriately.**

### [Episode List Ordering]

- The list is sorted by oldest, and if the last watched episode is episode 05, it will be sorted starting from episode 05.
- That is, episode 05 will be located at the far left of the list.

Name: button\_naming

Path:

2024.12.09 Updated

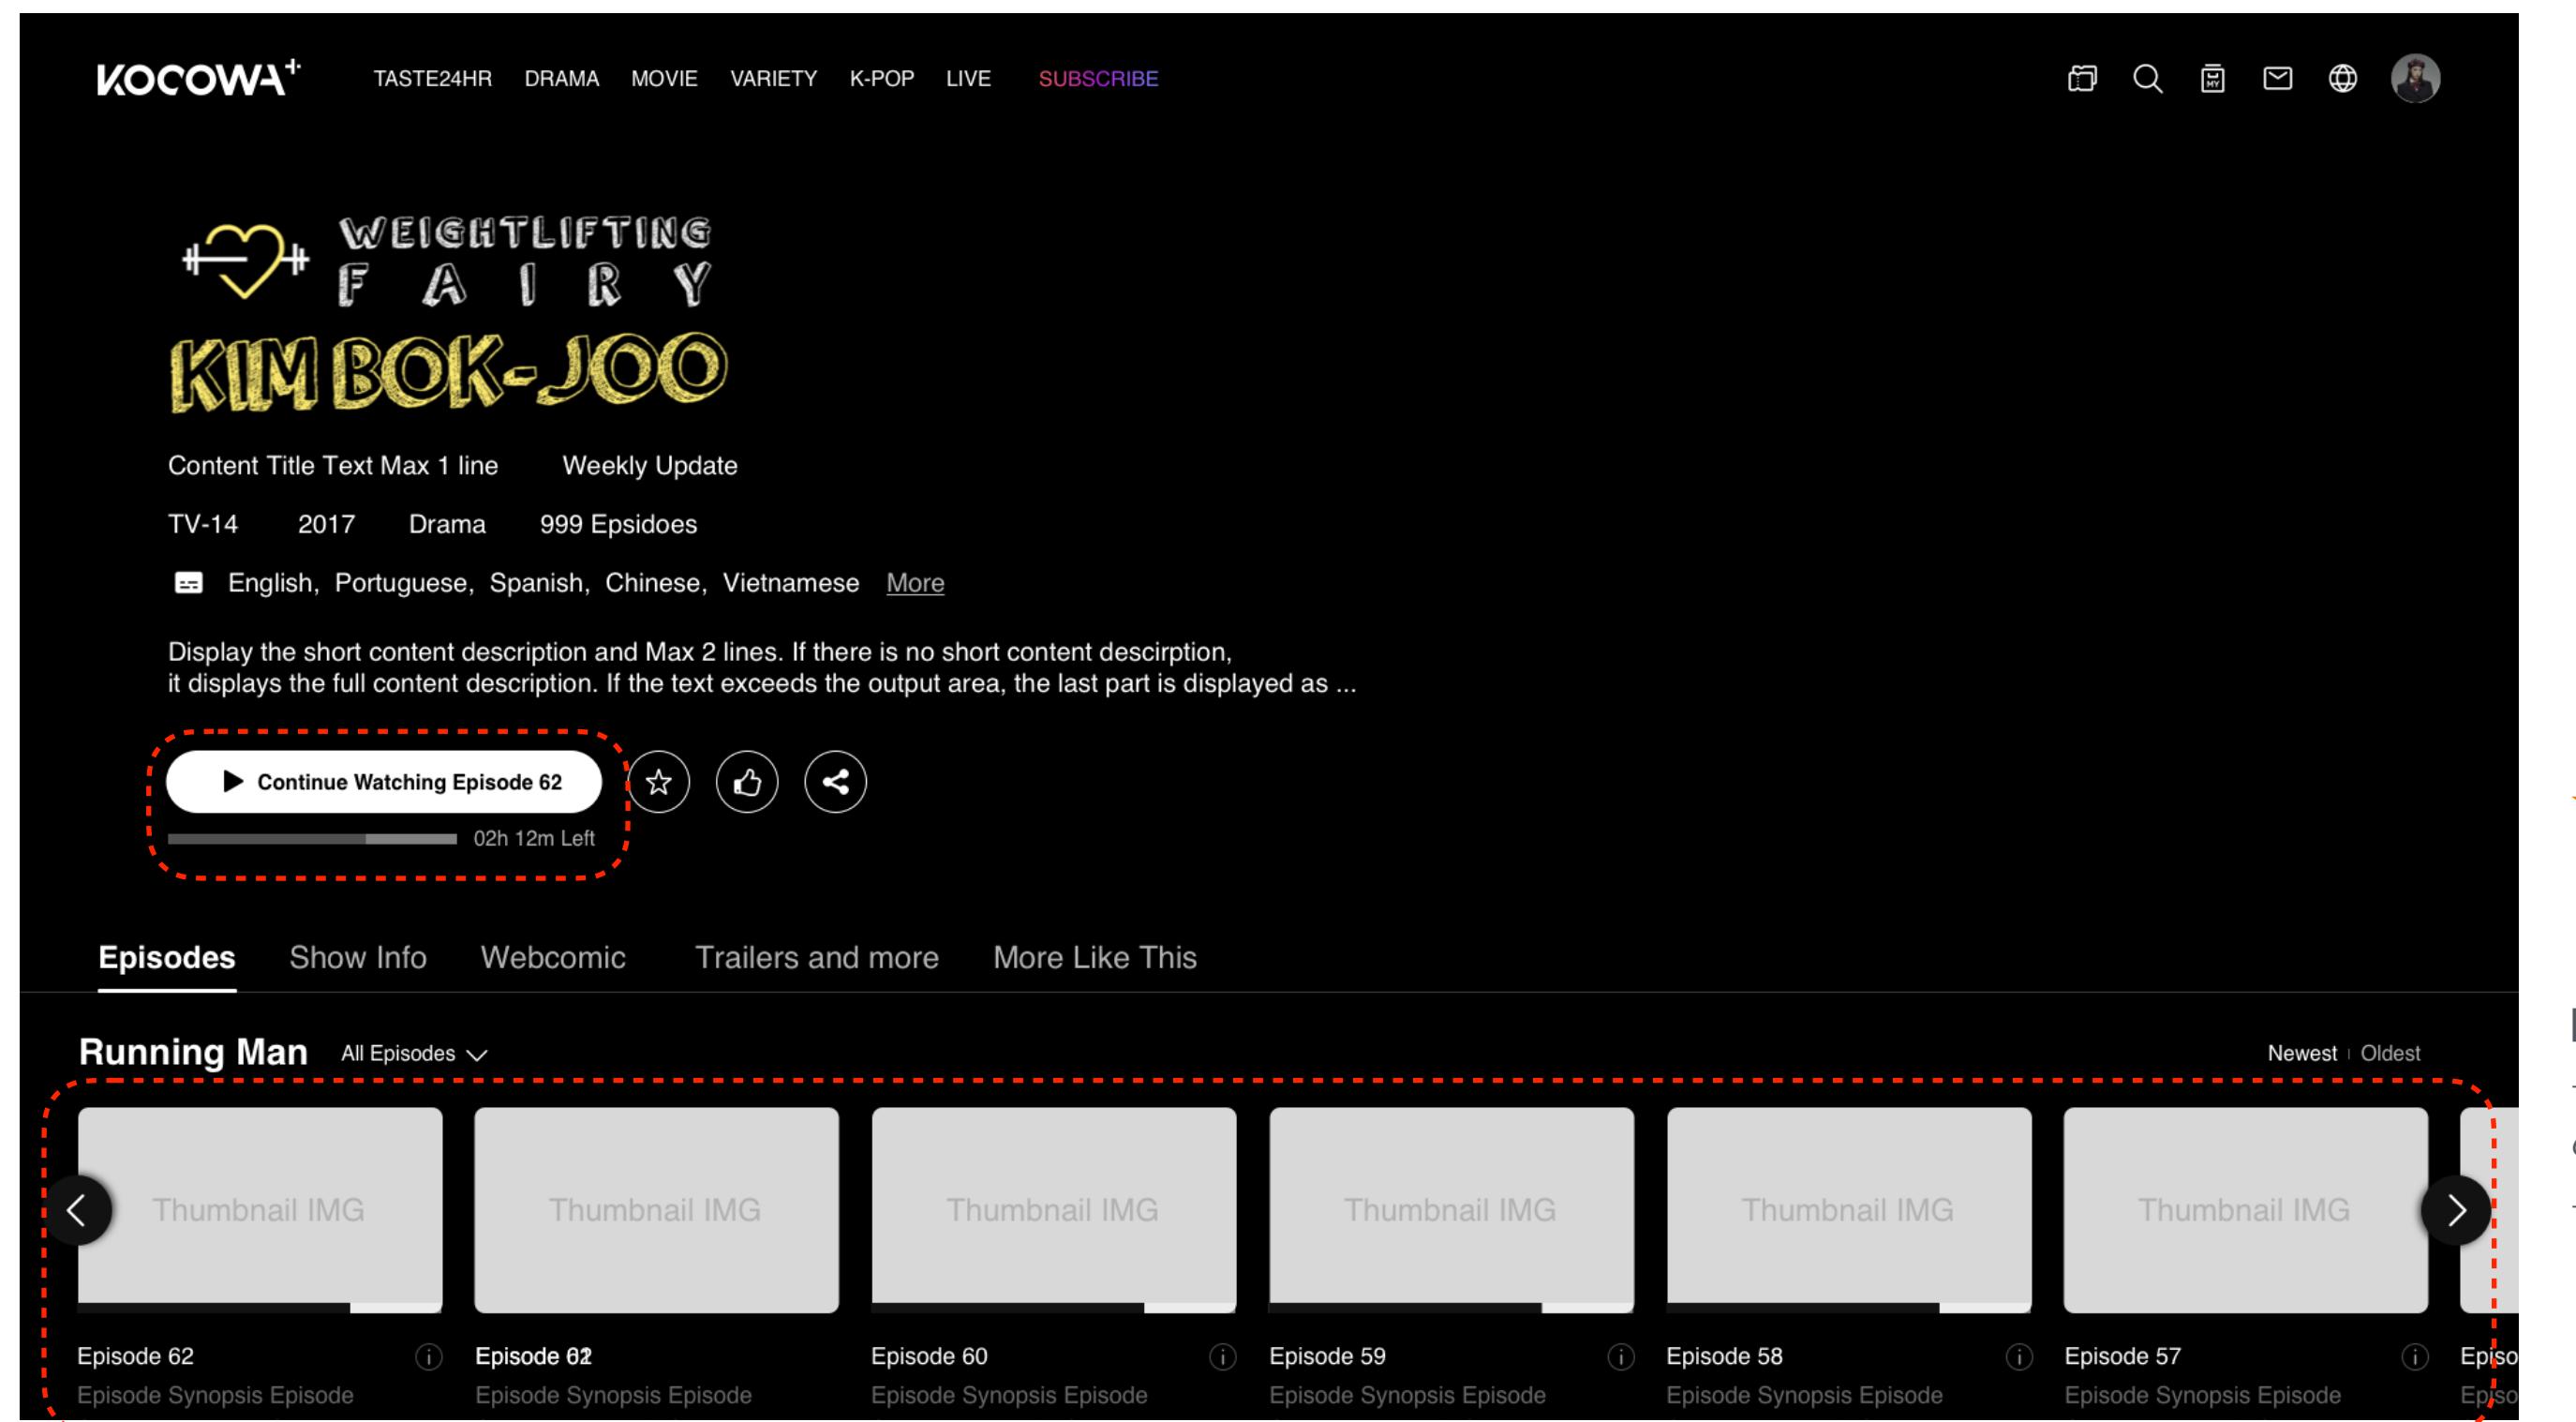

# General Rule

**★When changing the way the episode list is sorted or stopping episode playback and re-displaying the Content detail screen, the button name should change accordingly.**

## 6. [Continue Watching Episode nnn]

(If the content has episodes) If the user has a viewing history, it will be displayed with the most recently watched episode number.

And at the bottom of the button, it outputs a progress bar and remaining time for the viewing history.

**★When entering the content detail screen and stopping episode playback and returning to the content detail screen, the Episode List should be sorted appropriately.**

### [Episode List Ordering]

- The list is sorted by most recent, and if the last episode the user watched was episode 62, it will be located at the far left of the list on the screen.
- An indicator icon that allows the user to move the list to the left will be displayed.

Name: button\_naming

Path:

2024.11.14 Updated

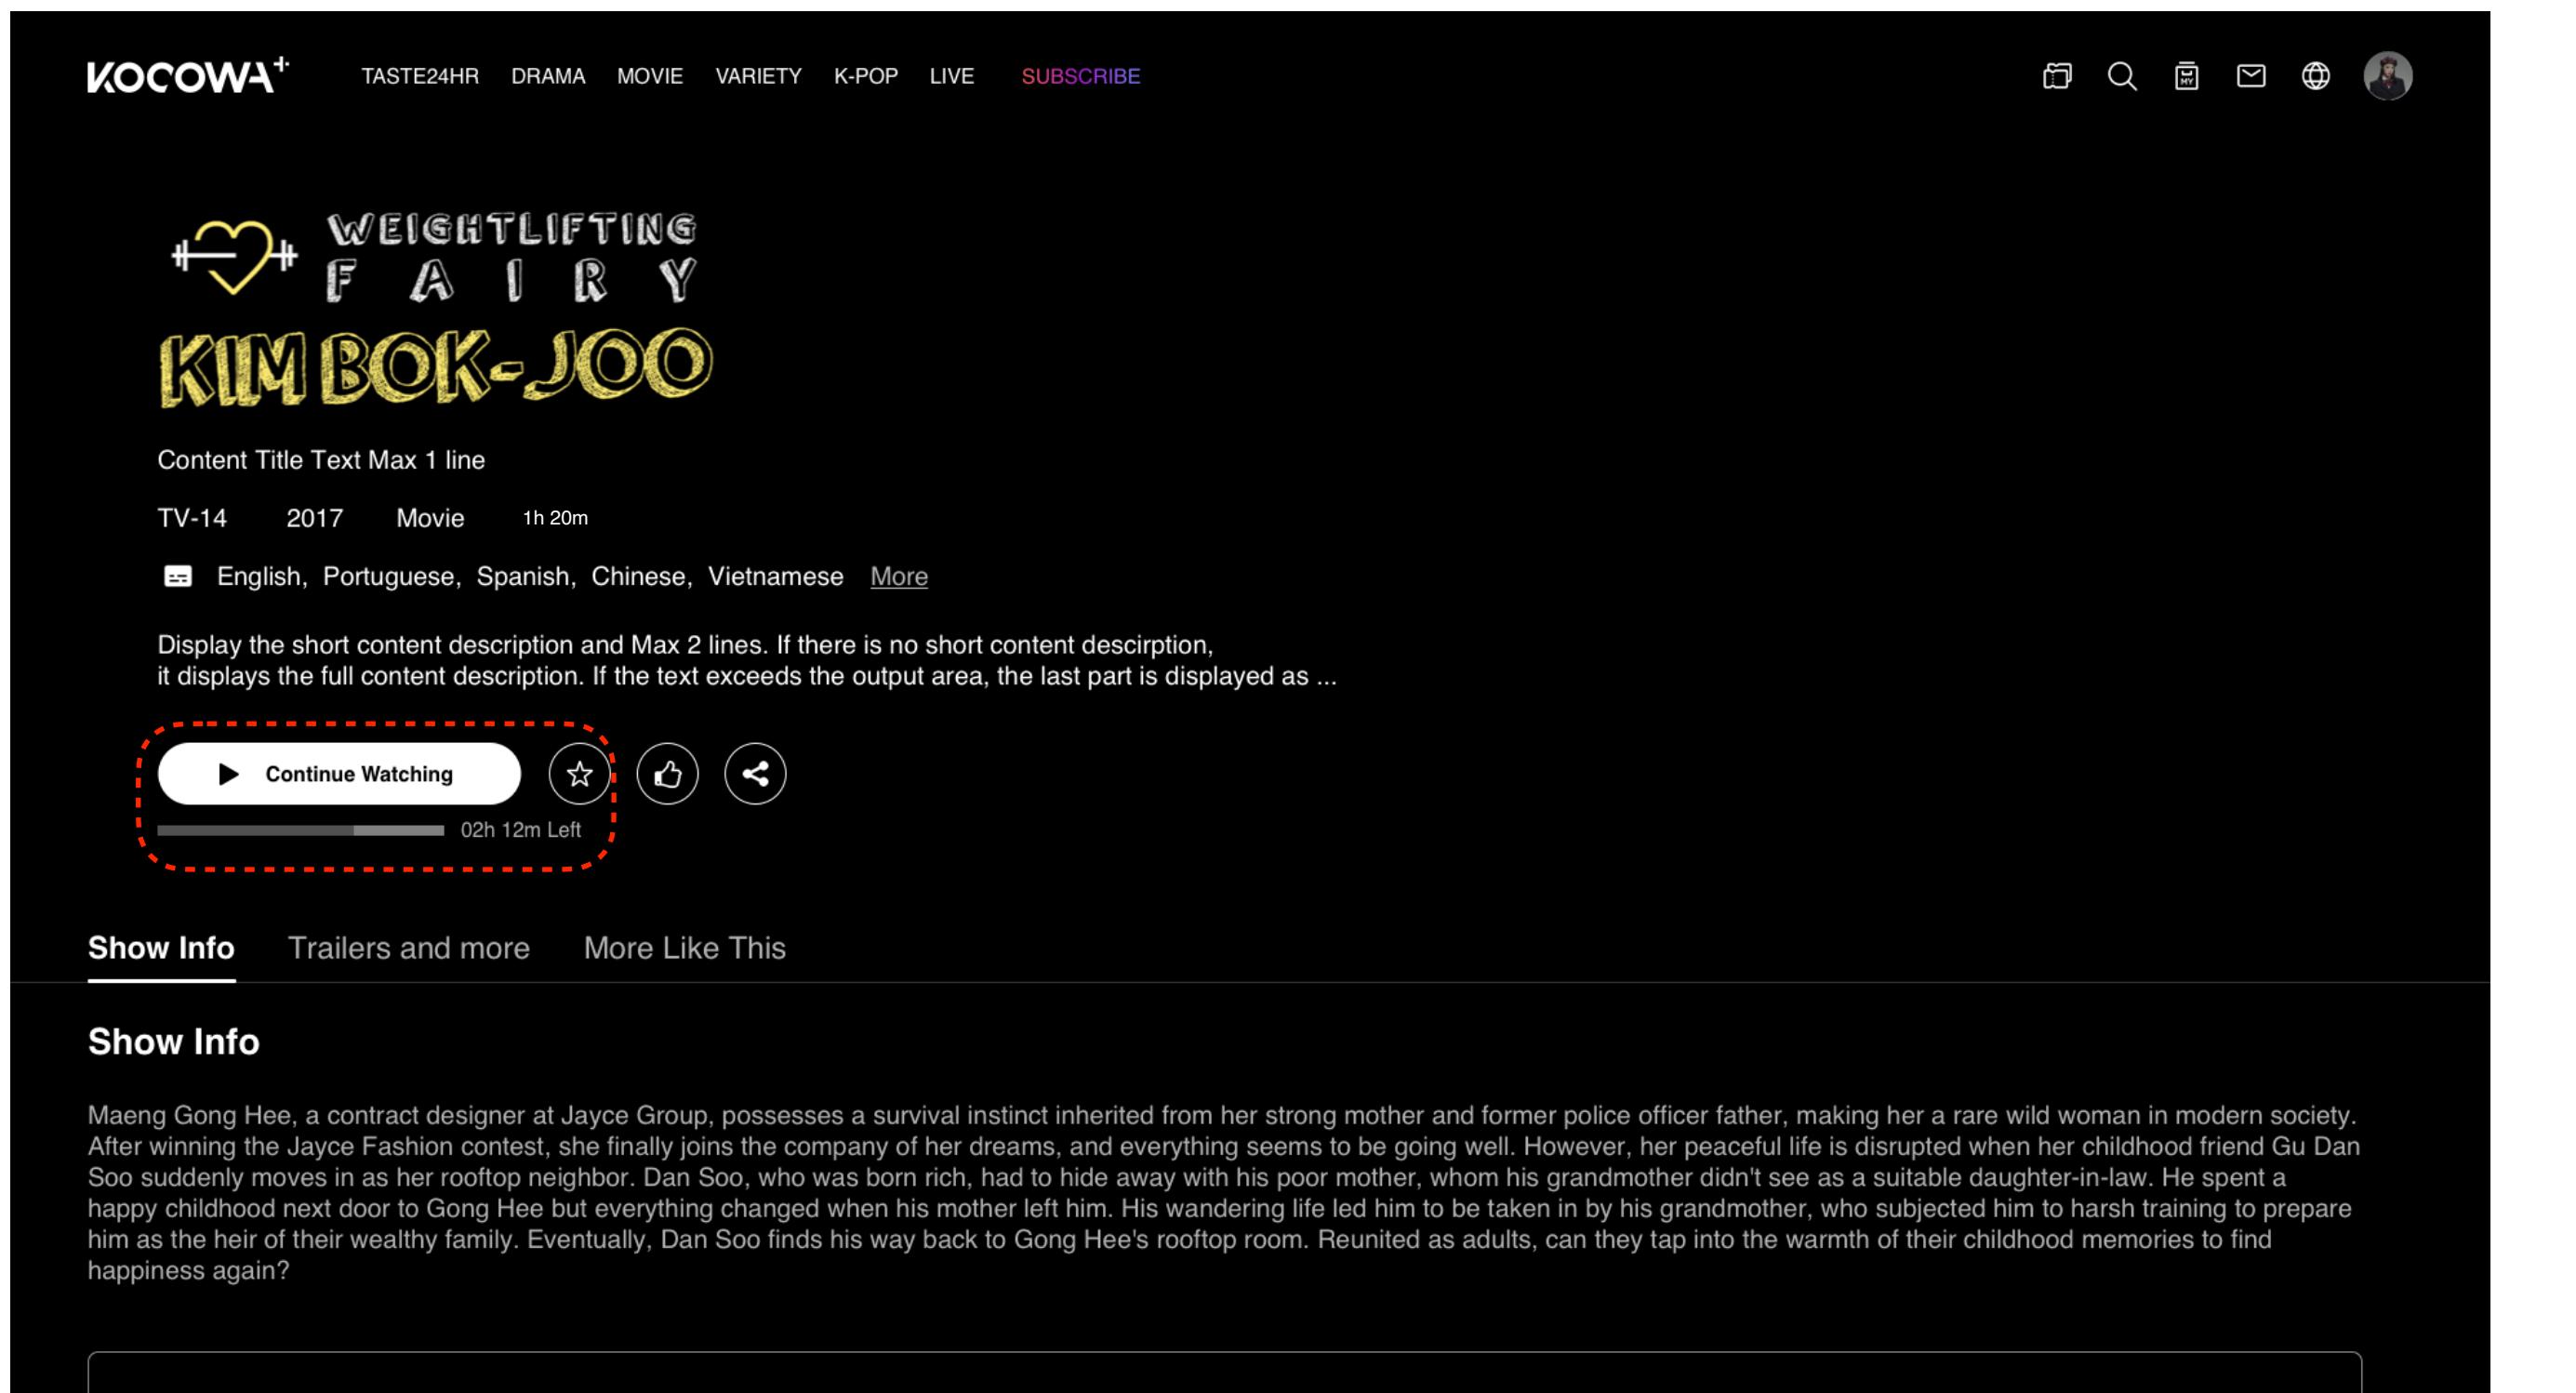

# General Rule

★When changing the way the episode list is sorted or stopping content playback and re-displaying the Content detail screen, the button name should change accordingly.

## 7. [Continue Watching]

(If the content does not have episodes) The button name is displayed as Continue Watching.

And at the bottom of the button, it outputs a progress bar and remaining time for the viewing history.

Name: button\_naming

Path:

2024.12.09 Updated

# General Rule

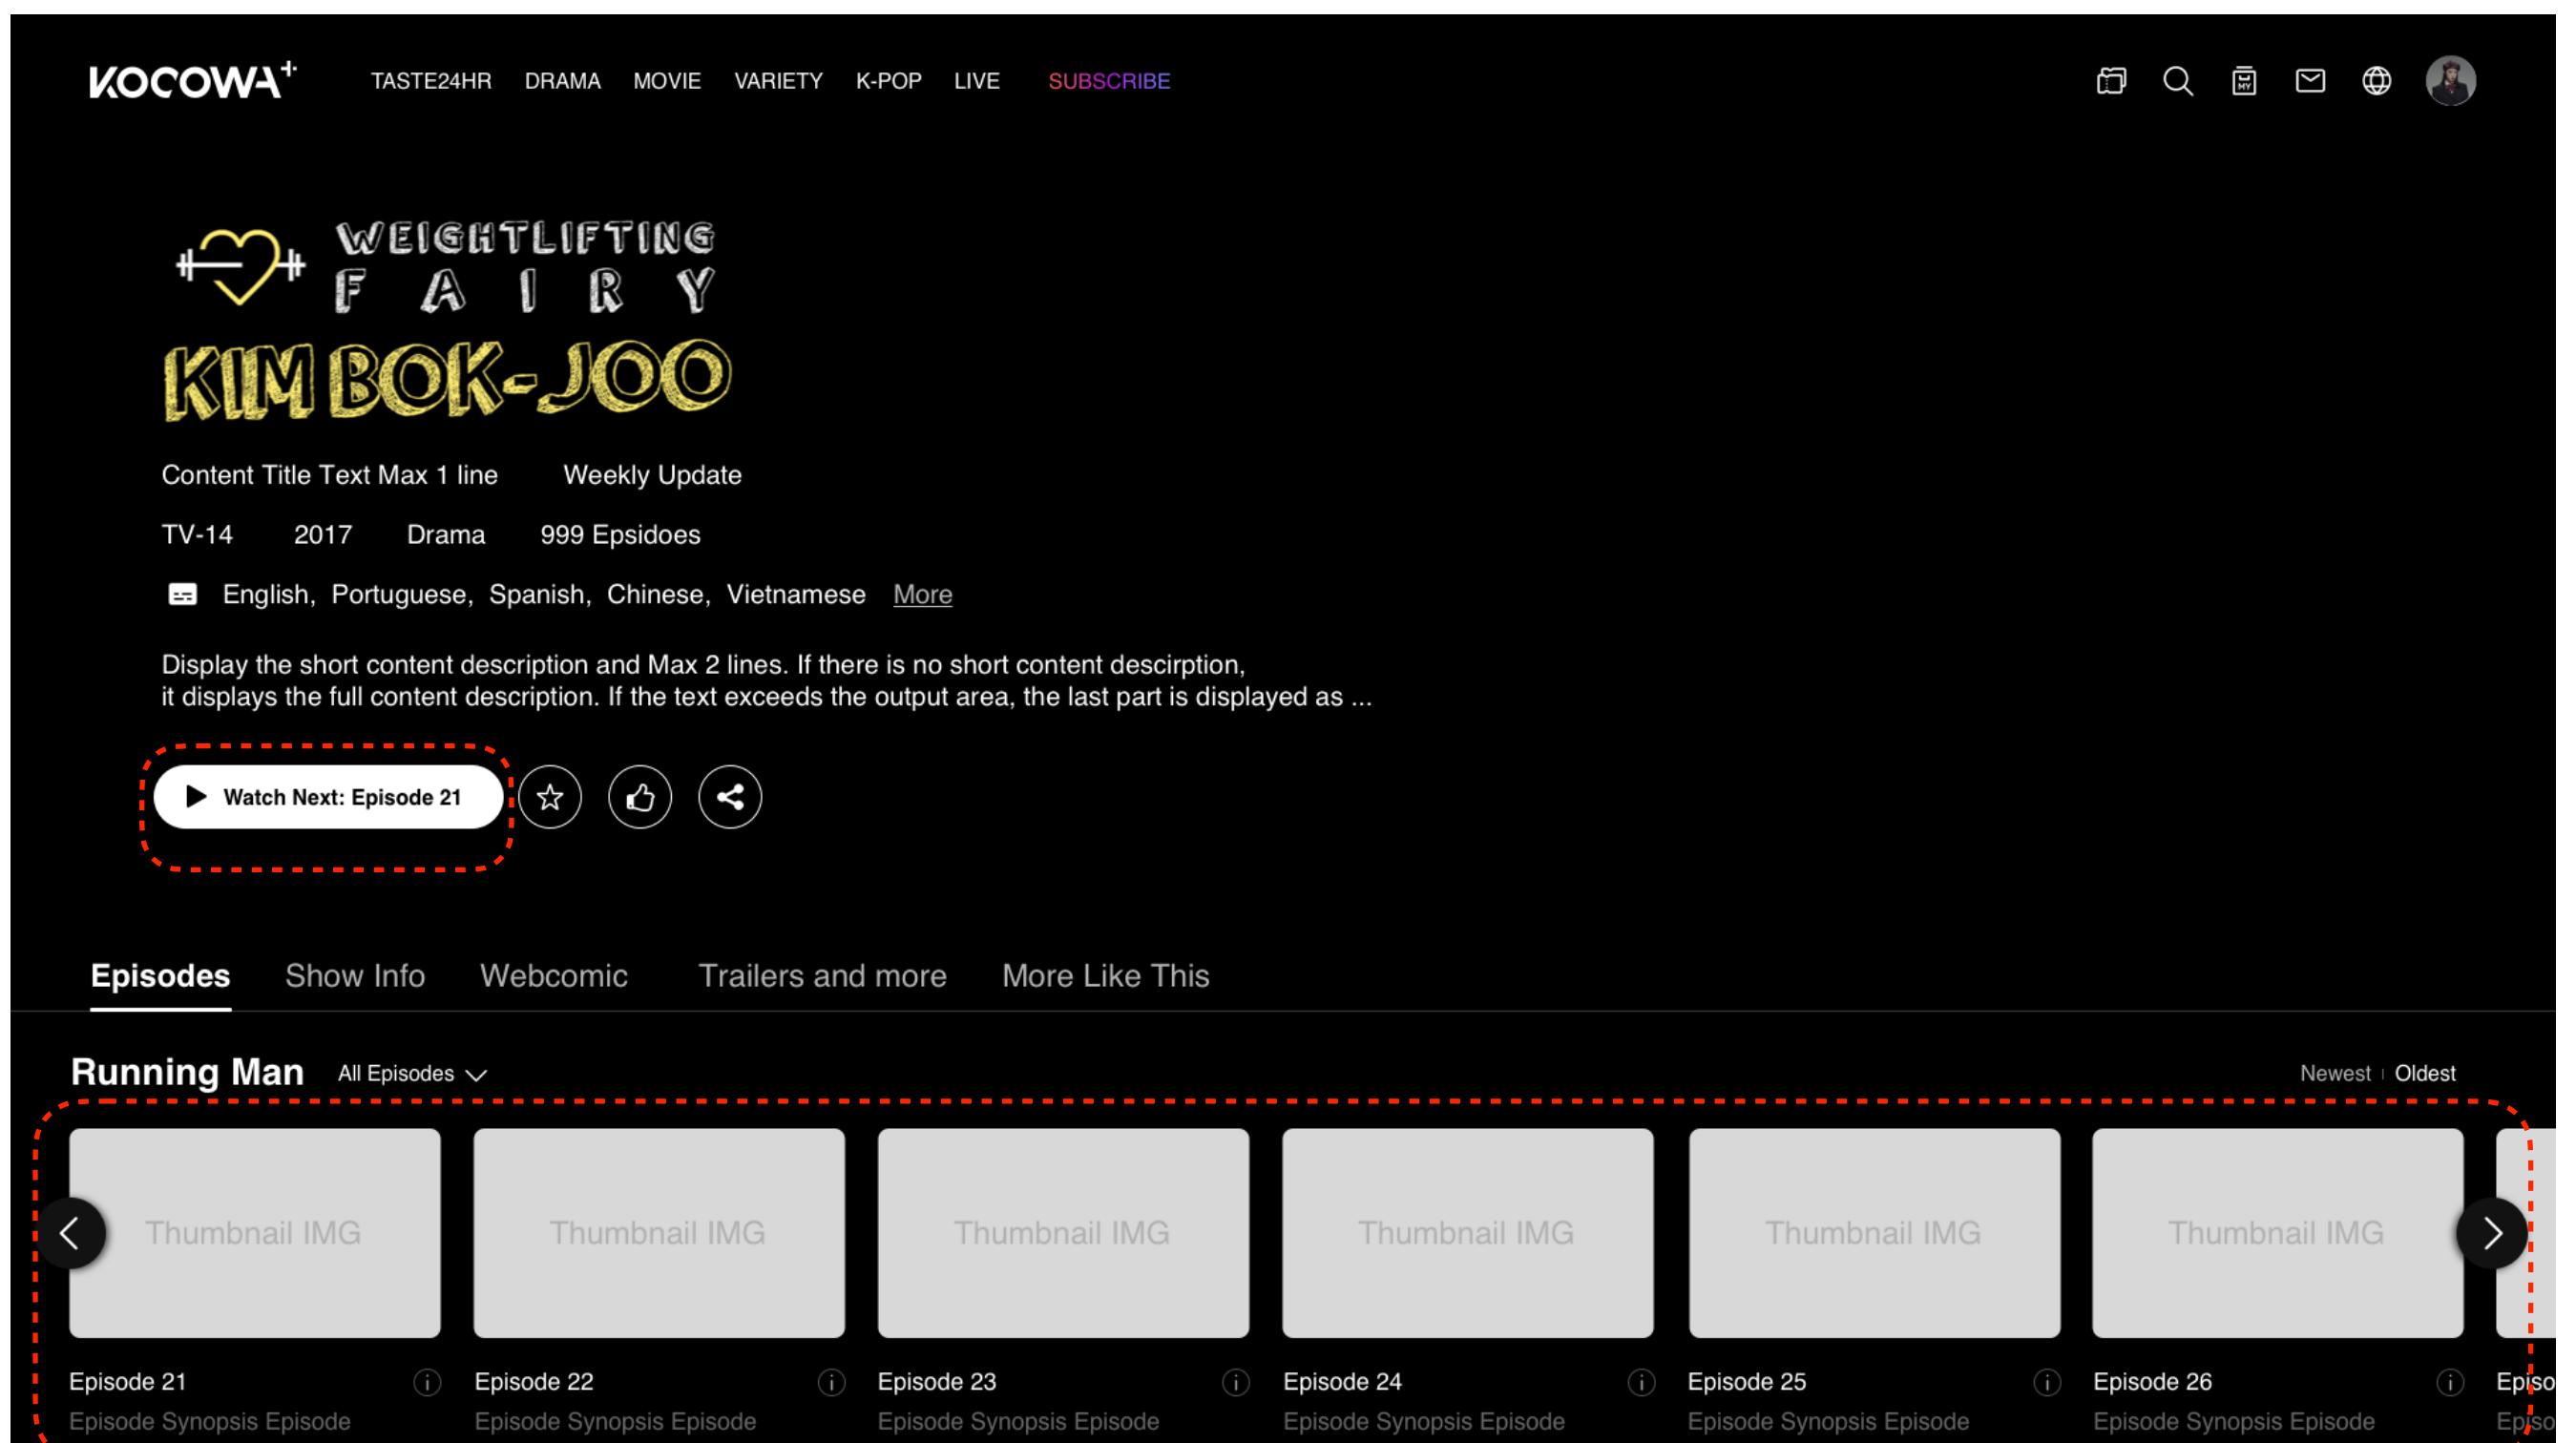

**★When changing the way the episode list is sorted or stopping episode playback and re-displaying the Content detail screen, the button name should change accordingly.**

## 8. [Watch Next: Episode 21]

Conditions:

- Episode 20 is the last viewing history
- If there is no remaining viewing time for Episode 20 (or it is not a server-storage condition)

If the above conditions are met, a button called 'Watch Next: Episode 21' will be displayed.

**★When entering the content detail screen and stopping episode playback and returning to the content detail screen, the Episode List should be sorted appropriately.**

### [Episode List Ordering]

- If the user does not have a viewing history and sort by Oldest, it will be sorted by the lowest episode number as shown above.
- The next episode the user watched last is located at the far left of the screen.
- An indicator icon that allows the user to move the list to the left will be displayed.

Name: button\_naming

Path:

2024.12.09 Updated

# General Rule

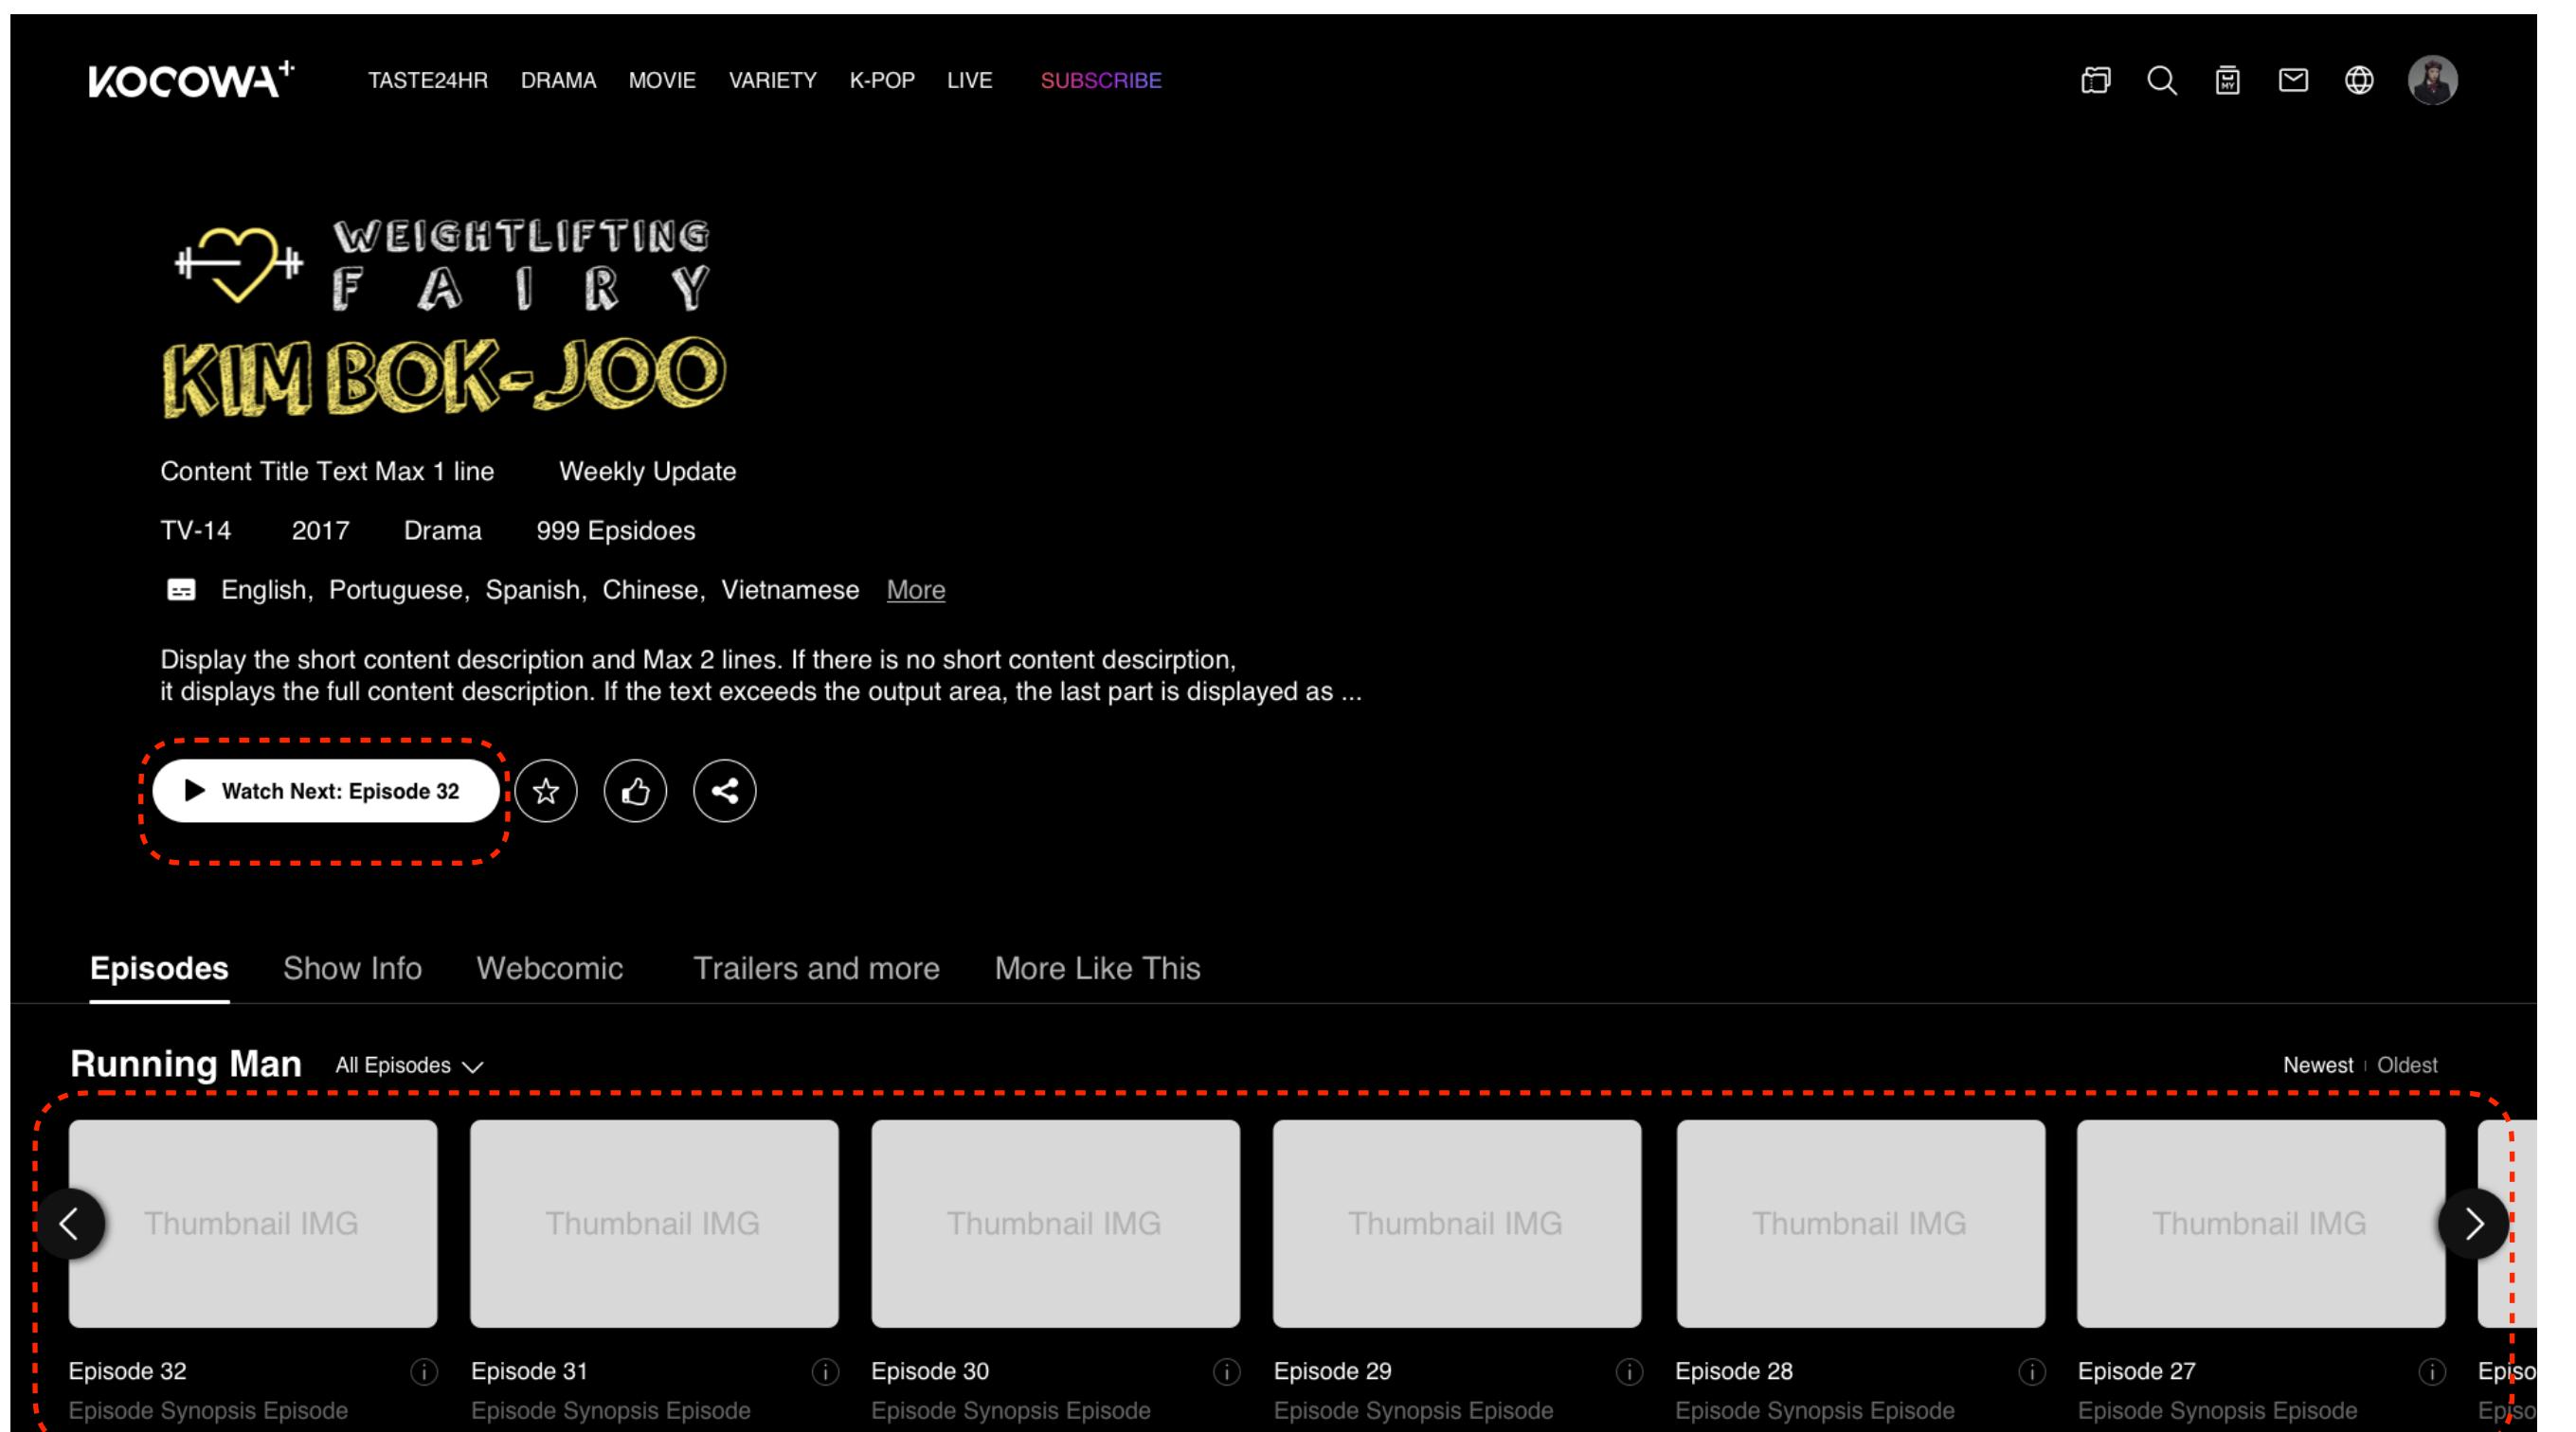

**★When changing the way the episode list is sorted or stopping episode playback and re-displaying the Content detail screen, the button name should change accordingly.**

## 9. [Watch Next: Episode 32]

Conditions:

- Episode 31 is the last viewing history
- If there is no remaining viewing time for Episode 31 (or it is not a server-storage condition)

If the above conditions are met, a button called 'Watch Next: Episode 32' will be displayed.

**★When entering the content detail screen and stopping episode playback and returning to the content detail screen, the Episode List should be sorted appropriately.**

### [Episode List Ordering]

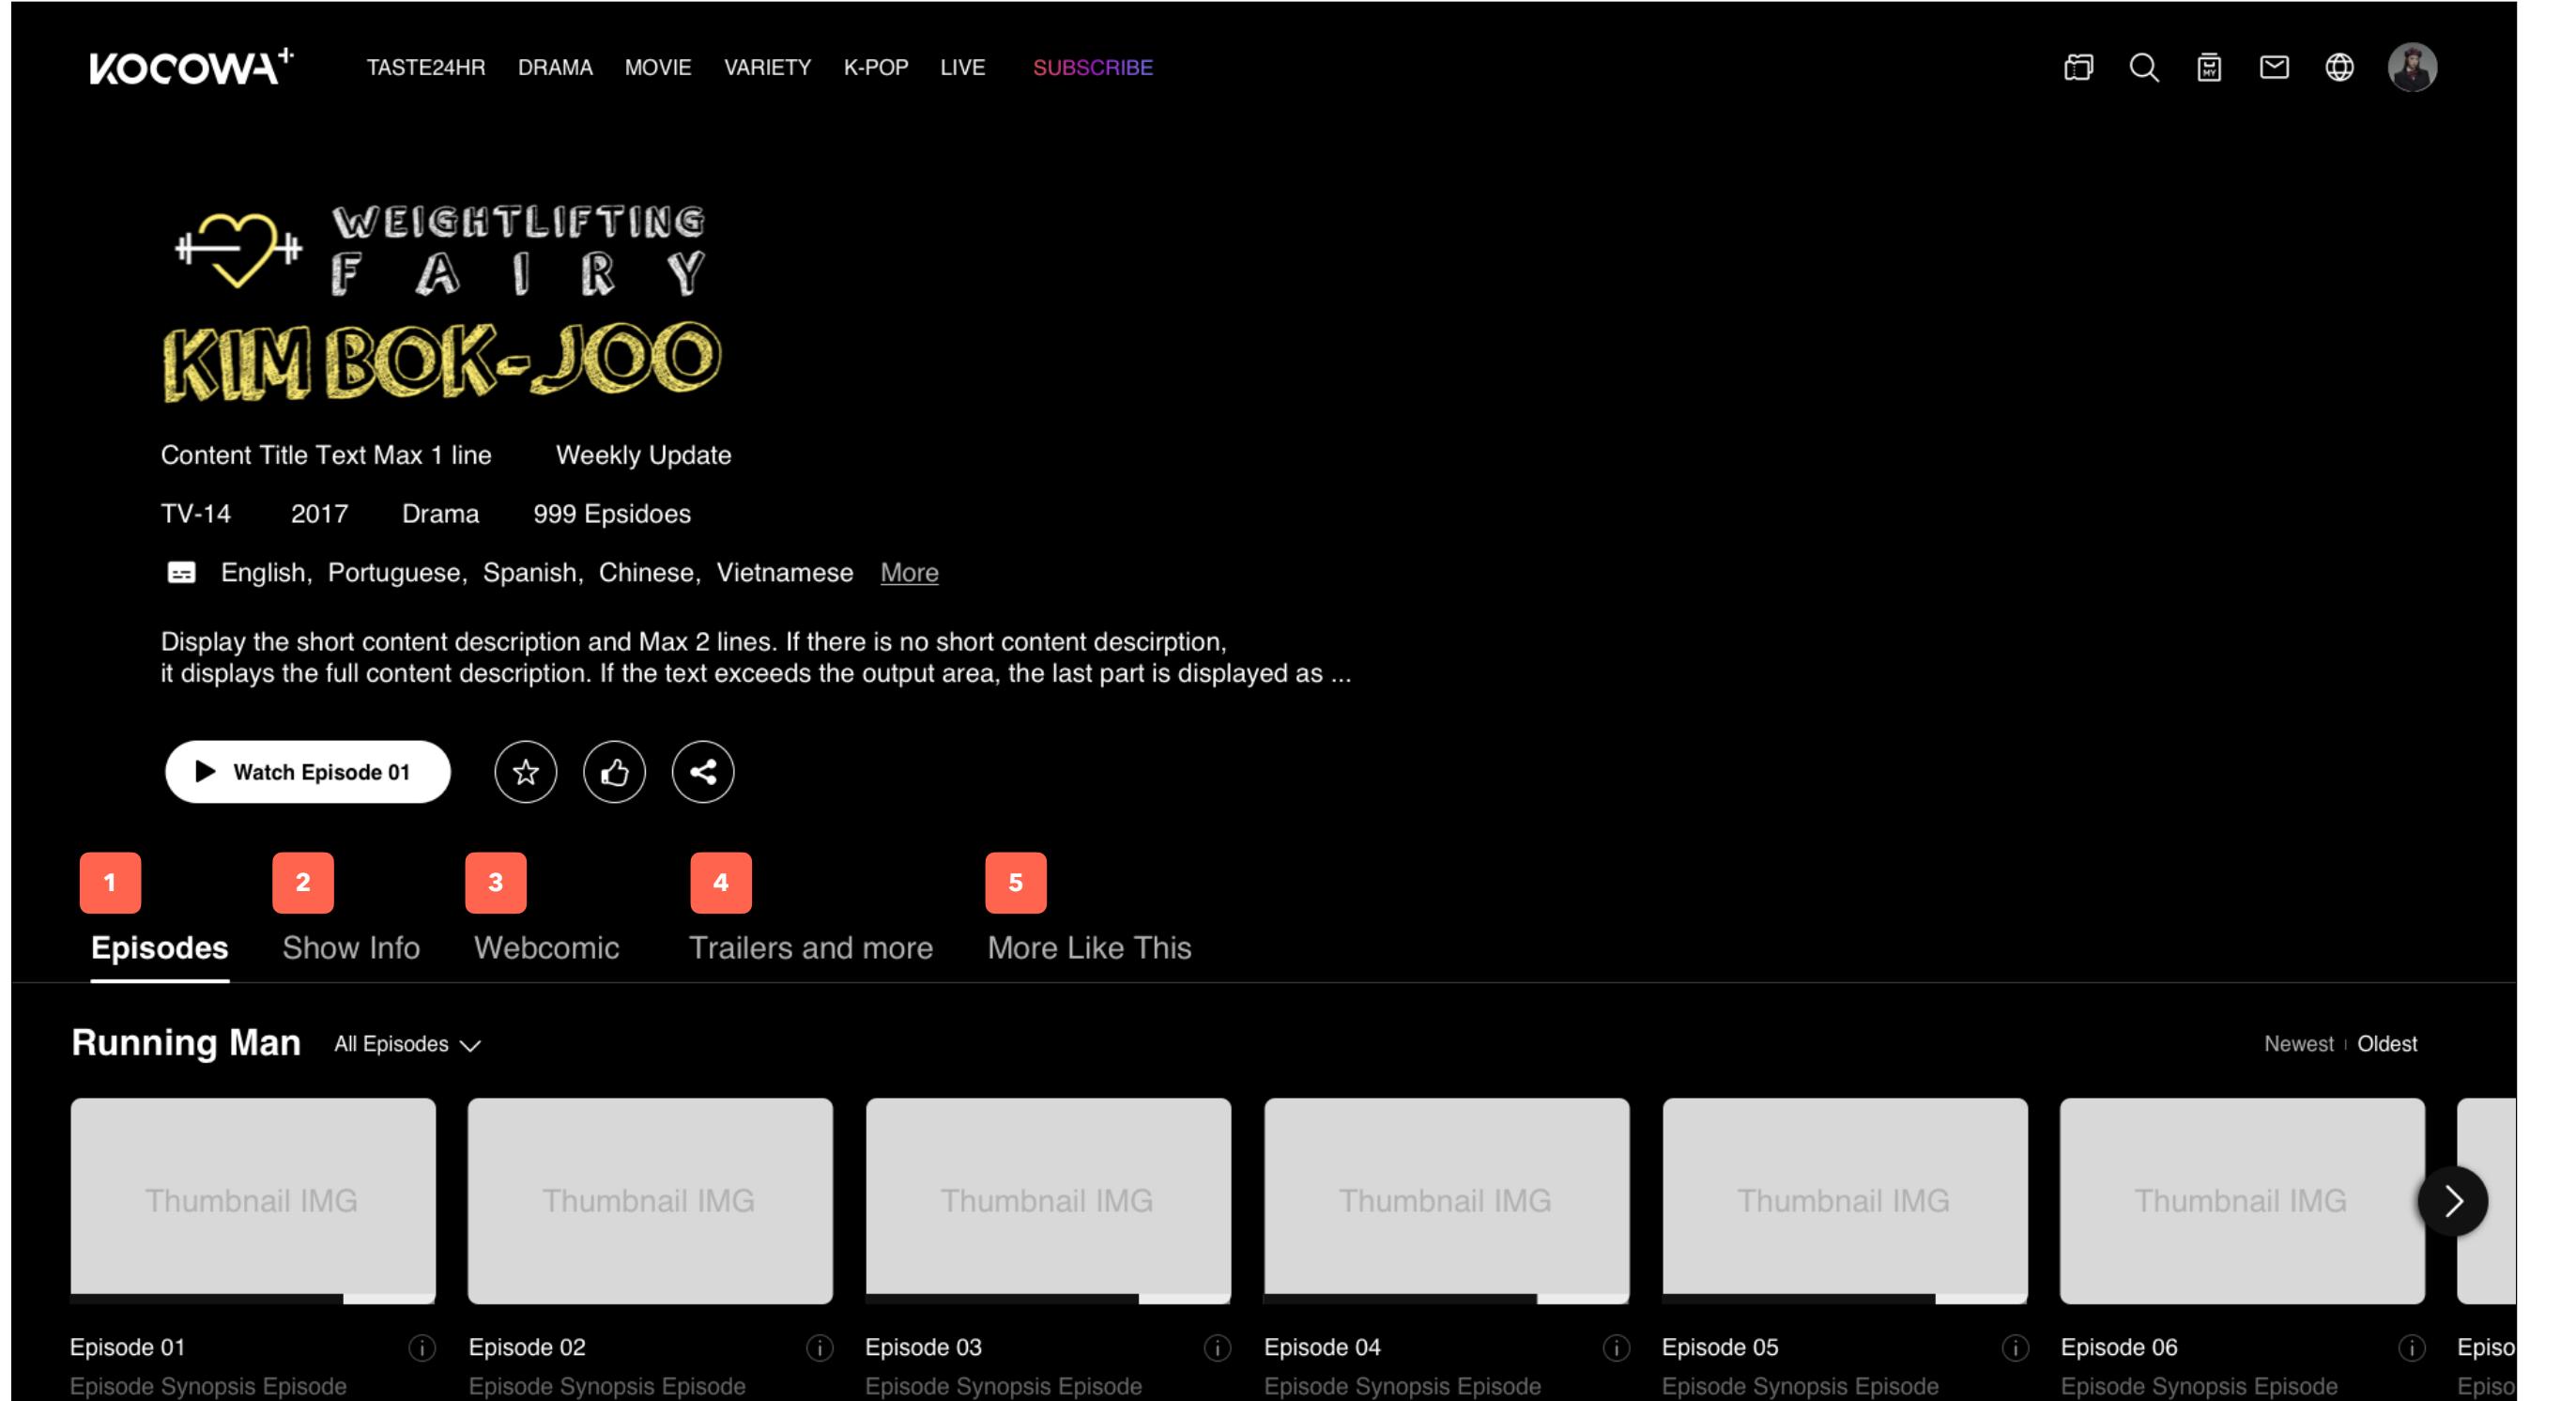

If the last episode the user watched is episode 31, and there is nothing left to watch for episode 31, episode 32 is located on the leftmost side of the screen.

- An indicator icon that allows the user to move the list to the left will be displayed.

**1** **Show Info**

**2** Maeng Gong Hee, a contract designer at Jayce Group, possesses a survival instinct inherited from her strong mother and former police officer father, making her a rare wild woman in modern society. After winning the Jayce Fashion contest, she finally joins the company of her dreams, and everything seems to be going well. However, her peaceful life is disrupted when her childhood friend Gu Dan Soo suddenly moves in as her rooftop neighbor. Dan Soo, who was born rich, had to hide away with his poor mother, whom his grandmother didn't see as a suitable daughter-in-law. He spent a happy childhood next door to Gong Hee but everything changed when his mother left him. His wandering life led him to be taken in by his grandmother, who subjected him to harsh training to prepare him as the heir of their wealthy family. Eventually, Dan Soo finds his way back to Gong Hee's rooftop room. Reunited as adults, can they tap into the warmth of their childhood memories to find happiness again?

# General Rule

## 1. [View the First Episode]

- The method of sorting the webcomic episode list is not affected, and if there is no history of viewing the webcomic, this button is displayed.
- If the user selects this button, the user will watch from the first episode.
- If the user has finished watching the last episode, this button will be displayed

## 2. [Continue Viewing Episode nnn]

- If the last webcomic the user saw was not viewed in its entirety, this button will output it.
- If the user outputs this button, it will move to the last viewing point.

The screenshot shows the KOCOWA+ website interface. At the top, there's a navigation bar with categories: TASTE24HR, DRAMA, MOVIE, VARIETY, K-POP, LIVE, and SUBSCRIBE. Below the navigation, there are five tabs: Episodes, Show Info, Webcomic (which is underlined), Trailers and more, and More Like This. The main content area is titled "Webcomic" and displays a summary of a webcomic titled "Maeng Gong Hee". It includes a placeholder "Poster IMG" and a detailed plot summary. At the bottom of the summary, there's a "More" link. Below the summary are three circular icons with symbols: a star, a thumbs up, and a share icon. A prominent white button with a black border and rounded corners contains the text "View First Episode".

This screenshot shows the same KOCOWA+ website interface as the previous one, but the "Webcomic" tab is still selected. The main content area now displays a summary of the second episode of the webcomic, titled "Continue Viewing Episode 02". It includes a placeholder "Poster IMG" and a detailed plot summary. At the bottom of the summary, there's a "More" link. Below the summary are three circular icons with symbols: a star, a thumbs up, and a share icon. A prominent white button with a black border and rounded corners contains the text "Continue Viewing Episode 02".

Path: Home Main &gt; Content Detail

The screenshot shows the KOCOWA+ website interface for a webcomic. At the top, there's a navigation bar with categories like TASTE24HR, DRAMA, MOVIE, VARIETY, K-POP, LIVE, and SUBSCRIBE. Below the navigation is a header with 'Episodes', 'Show Info', and 'Webcomic' (which is underlined, indicating it's the active tab). Other tabs include 'Trailers and more' and 'More Like This'. The main content area is titled 'Webcomic' and features a large placeholder 'Poster IMG'. Below the poster, the title 'Display the webcomics title text' is shown, followed by 'Updates Every Monday'. A detailed plot summary is provided: 'Maeng Gong Hee, a contract designer at Jayce Group, possesses a survival instinct inherited from her strong mother and former police officer father, making her a rare wild woman in modern society. After winning the Jayce Fashion contest, she finally joins the company of her dreams, and everything seems to be going well. However, her peaceful life is disrupted when her childhood friend Gu Dan Soo suddenly moves in as... More'. Below the summary are social sharing icons (star, thumbs up, etc.) and a 'View First Episode' button. To the right, there are sections for 'Writer' (Lee Ha Nee, Lee Sang, Yun, Jin Seo Yeon, Lee won Geun) and 'Subtitles' (English · Portuguese · Spanish · Chinese · Vietnamese). A sorting dropdown 'All Episodes' is set to 'Newest'. The episode list starts with 'Episode 01 Free' (Thumbnail IMG), followed by 'Episode 02 New' (Thumbnail IMG), 'Episode 03 Free New' (Thumbnail IMG), 'Episode 04' (Thumbnail IMG), 'Episode 05' (Thumbnail IMG), 'Episode 06' (Thumbnail IMG), and 'Episode 07' (Thumbnail IMG). Each episode card includes a lock icon (4), a number (5, 6, 7, 8), and a right-pointing arrow (3). Below the episodes, a section titled 'Trailers and more' is visible.

# General Rule

## 1. about the Webcomic List

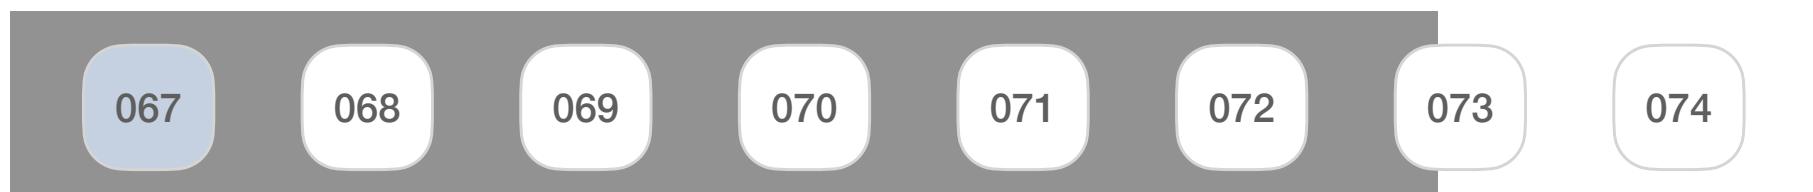

## 2. How to sort webcomic content list when entering the content detail screen.

Case #1 If the user has never viewed webcomic episode content.

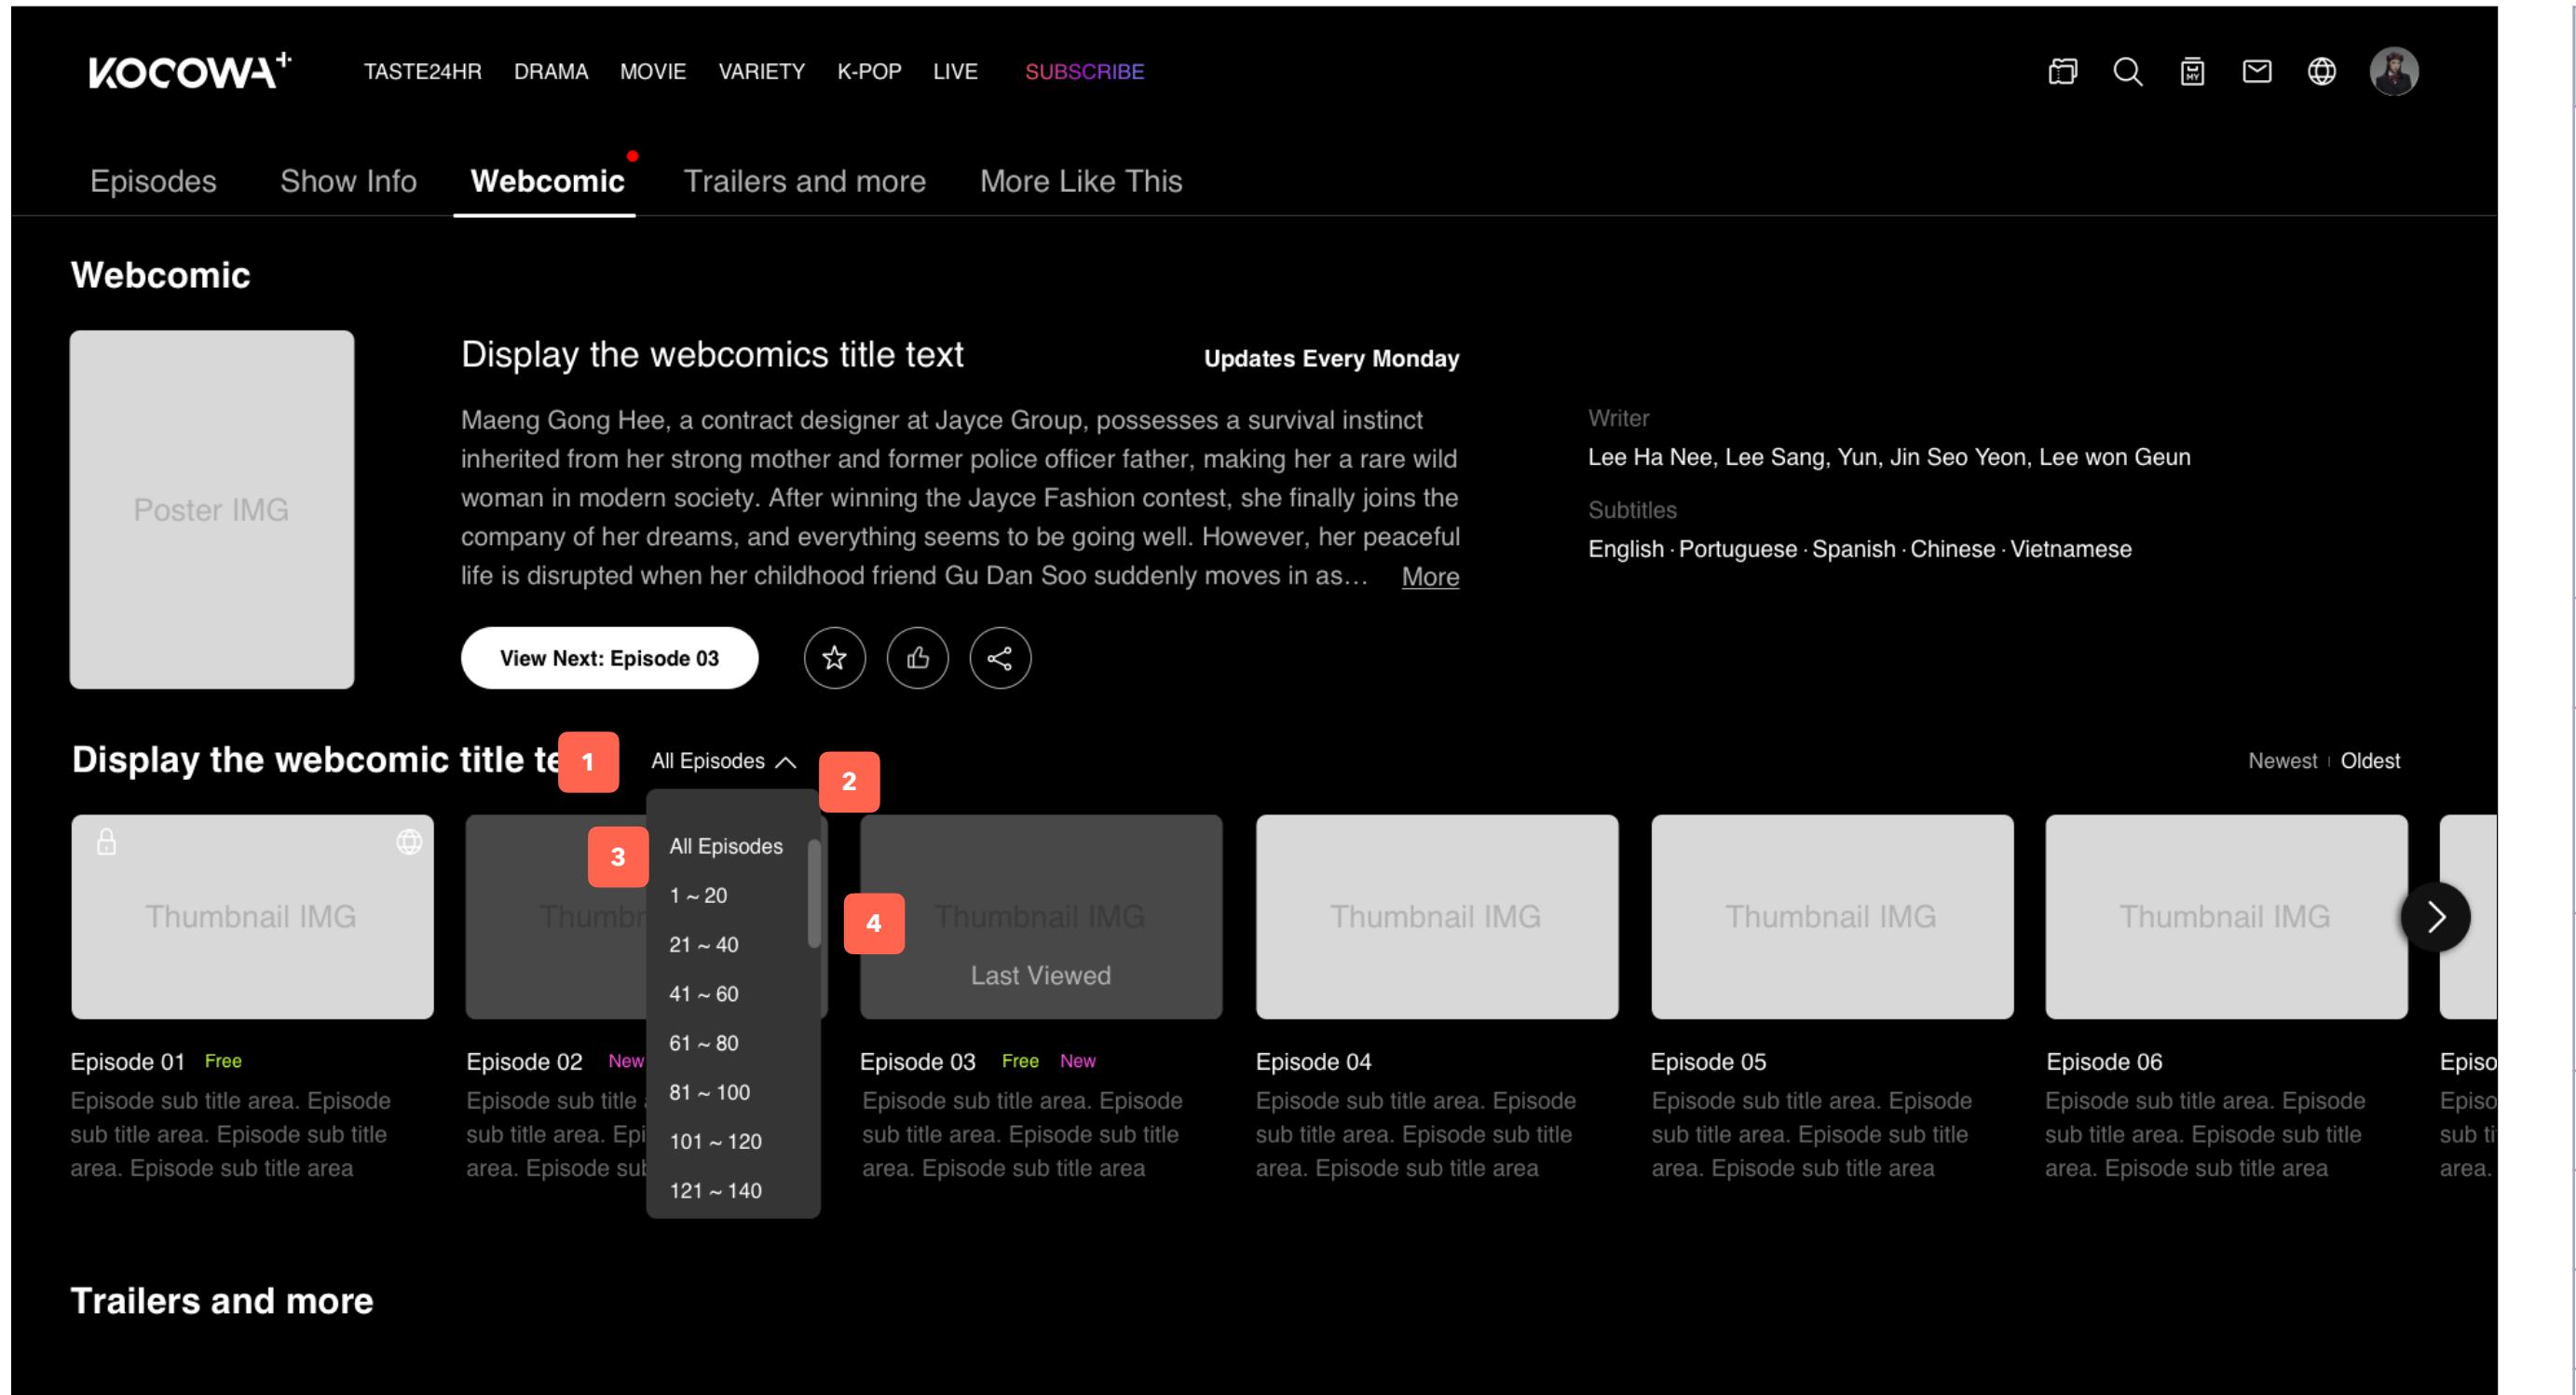

Case #2 If there is webcomic episode content the user last viewed. And the user has viewed all the Last View Episodes.  
 (ex. Last viewed webcomic episode number is the 067)
